CONVENTIONS USED IN THESE FINANCIAL STATEMENTS

Except where the context requires otherwise and for purposes of these financial statements only:

“Our Company”, “the Company”, “APGL”, or “Azure Power” refers to Azure Power Global Limited on standalone basis
“We”, “us”, “the Group”, “Azure” or “our” refers to Azure Power Global Limited, a Company organized under the laws of Mauritius, together with its subsidiaries (including Azure Power India Private Limited (“APIPL”), Azure Power Rooftop Private Limited (“AZR”), Azure Power Energy LTD (“APEL”) and Azure Power Solar Energy Private Limited (“APSEPL”), its predecessor and current subsidiaries)
“APTEL” refers to Appellate Tribunal for Electricity
“Awarded” refers to the capacity won and for which LoA has been received
“APIPL” a company organized under the laws of India, refers to Azure Power India Private Limited
“La Caisse” refers to Caisse de dépôt et placement du Québec
“CDPQ Infrastructures” refers to CDPQ Infrastructures Asia Pte Ltd.
“CEO” refers to Chief Executive Officer
“CERC” refers to the Central Electricity Regulatory Commission of India, the state level counterparts of which are referred to as “State Electricity Regulatory Commission”, or “SERC”
“Contracted” refers to capacity won and for which a PPA has been signed with off-taker
“COO” refers to Chief Operating Officer
“CSR” refers to Corporate Social Responsibility
“Discom” refers to Distribution Company
“GIB” refers to Great Indian Bustard
“GW” refers to Gigawatt
“INR”, “rupees”, or “Indian rupees” refers to the legal currency of India
“LoA” refers to Letter of Award
“MNRE” refers to Ministry of New and Renewable Energy, Government of India.
“MoP” refers to Ministry of Power, Government of India
“MSPA” refers to Master Share Purchase Agreement
“MW” refers to Megawatt
“NYSE” refers to New York Stock Exchange
“OMERS” refers to OMERS Infrastructure Asia Holdings Pte. Ltd.
“PIL” refers to Public Interest Litigation
“PPA” refers to Power Purchase Agreement
“Radiance” refers to Radiance Renewables Private Limited
“SEC” refers to the U.S. Securities and Exchange Commission
“SECI” refers to Solar Energy Corporation of India
“U.S. GAAP” refers to the Generally Accepted Accounting Principles in the United States
“US\$”, “\$” or “U.S. dollars” refers to the legal currency of the United States
“VGF” refers to Viability Gap Funding

AZURE POWER GLOBAL LIMITED
DIRECTORS' REPORT TO THE MEMBERS

To
The Members,

The Directors have the pleasure in submitting their report of Azure Power Global Limited (the "Company") along with the audited consolidated and separate financial statements for the financial year ended on March 31, 2026. On August 14, 2026, the Group released its audited Consolidated financial statements for the year ended March 31, 2026, to the members.

The Company was incorporated on January 30, 2015 in Mauritius and its main activity is investment holding. The Company's subsidiaries are organized under the laws of India (except for 2 Mauritian direct subsidiaries and one U.S. indirect subsidiary). The Company is one of India's leading utility scale renewable energy project developer and operators. The Company through its Indian subsidiaries builds, owns, and operates large grid-scale renewable energy projects that supply clean energy to India's power grid.

The Group financial statements consist of the Company and its Subsidiaries.

1. Financial summary or highlights/performance of the company:

The Group and the Company's financial performance for the year ended March 31, 2026 is summarized as follows:

Particulars	For the year ended March 31, 2026	
	(US\$ thousands)	(US\$ thousands)
	The Group	The Company
Revenue from operations	231,168	-
Total expenses (net of income)	209,174	11,470
Profit/ (loss) before income tax	21,994	(11,470)
Income tax expense	(51,343)	-
Loss after tax and before non-controlling interests	(29,349)	(11,470)
Gain attributable to non-controlling interests	42	-
Loss after tax and after non-controlling interests	(29,391)	(11,470)

2. Financial performance and state of company affairs:

Standalone Financial Details:

The Company's loss for the year ended March 31, 2026 is US\$ 11,470 thousands.

Consolidated Financial Details:

The Group's loss for the year ended March 31, 2026 is US\$ 29,391 thousands.

3. Dividend:

The Group has made a net loss of US\$ 29,391 thousands during the year and therefore, the Board does not recommend the payment of any dividend for the year under review.

4. Group structure:

During the year under review, the Company holds 98.52% of Azure Power India Private Limited and all the shares of Azure Power Energy Limited, Azure Power Solar Energy Private Limited and Azure Power Rooftop Private Limited and is therefore the holding company of the entire group.

5. Fund raised during the year:

During the year ended March 31, 2026, the Group has received loan proceeds of US\$ 500,918 thousands and the Company has received loan proceeds of US\$ 33,427 thousands.

6. Current size of operations:

The Company has 2 direct Mauritian subsidiaries, 2 direct Indian subsidiaries, 59 indirect Indian subsidiaries and 1 indirect US subsidiary as on date. All the Indian subsidiaries are engaged in the business of operating solar power projects.

6. Current size of operations (continued):

A. Project Pipeline

In Fiscal Year 2020, we won a bid for 2,000 MWs manufacturing linked project with SECI, and we also elected to exercise a greenshoe option for an additional 2,000 MWs as per auction guidelines. Out of this 4,000 MWs, 3,033 MWs of PPA were executed and balance 967 MWs were pending for PPA execution. During the Fiscal Year 2026, we executed PPAs for 400 MW capacity with SECI, and we are under discussions with SECI towards signing PPAs for the balance capacity of 567 MWs. For the 3,033 MWs for which we had executed PPAs with SECI during Fiscal Years 2022 and 2023, the Group will not continue with construction of these projects. For details, see section “Cancelled Projects” below.

In Fiscal Year 2023, We executed PPA with SECI for our first wind project of 120 MW. For this 120 MW Wind Project, the tariff was adopted by CERC (in March 2024), after a delay of more than 16 months. The approval for power procurement by one of the buying states (procuring 45 MW out of the 120 MW contracted capacity) regulatory commission was granted in May 2024. Because of the inordinate delay in getting these regulatory approvals (which is a Condition

Precedent to be fulfilled by SECI and/or the buying utility under the PPA), this tariff is no longer market competitive. Owing to this delay, and a few deviations in the PPA (from the standard bidding guidelines), we asked SECI to withdraw their tariff adoption petition filed at CERC and made a submission to the same effect at CERC as well. Despite our submissions, the said tariff was adopted at CERC, owing to which we have filed an appeal against the CERC order at APTEL. The matter is still pending adjudication.

In addition to the above, the Group has secured/ awaiting ISTS Connectivity grant for the following:

- a. 300 MW Hybrid Connectivity at 220 kV at Lakadia ISTS substation, Gujarat (in-principle connectivity grant secured)
- b. 300 MW Solar Connectivity at 220 kV at Raghnesda ISTS substation, Gujarat (Final connectivity grant secured)
- c. 600 MW Solar Connectivity at 400 kV at Bhadla-V ISTS substation, Gujarat (awaiting in-principle grant)
- d. 1,350 MW Non-Solar Connectivity in Rajasthan and Gujarat (awaiting in-principle grant)

The PPAs for the above projects are yet to be tied-up.

B. Cancelled Projects

Following a review of project commercial viability and a Special Committee investigation into certain projects and contracts for compliance and anti-corruption matters, Azure reassessed its commitments under SECI's 4,000 MW manufacturing-linked tender.

The Group had executed PPAs for 2,333 MW, but these projects became subject to legal challenges in the Andhra Pradesh High Court, creating uncertainty around tariff approvals. Given the legal risks, project economics, and the information identified from the Special Committee review, Azure decided to withdraw from the 2,333 MW projects and sought relief from its contractual obligations.

In October 2023, the Andhra Pradesh High Court granted interim protection against the encashment of bank guarantees worth US\$ 12,921 thousands. Subsequently, in March 2024, SECI terminated the PPAs, reserved its rights to forfeit related guarantees and fees, reassigned the projects to another developer, and reduced Azure's generation and manufacturing allocations under the tender. Azure recorded a write-off of US\$ 2,683 thousands and a provision of US\$ 12,921 thousands related to these projects in FY 2023.

Separately, Azure also chose to exit 700 MW projects under the same tender due to economic, execution, and compliance-related concerns. The Group recognized provisions of US\$ 11,125 thousands in FY 2023 and US\$ 211 thousands in FY 2024. Further during Fiscal Year 2025 SECI encashed US\$ 3,698 thousands of bank guarantees. A provision of US\$ 761 thousands was later reversed in FY 2026 following execution of a 400 MW PPA.

Separately, Bank Guarantees of approximately US\$ 2,324 thousands were submitted for obligations under module MCAs. To prevent coercive actions, including encashment of the bank guarantees, we filed a petition before the High Court of Andhra Pradesh. A stay has been granted against any coercive action including such encashment, and the next hearing date will be notified in due course.

The Group also recognized an additional provision of US\$ 2,060 thousands in FY 2025 relating to these manufacturing contracts, including delays arising from reduced manufacturing capacity allocations.

PPA in respect of our 150 MW solar-wind Hybrid project

In relation to the 150 MW Solar-Wind Hybrid Project, the Group decided to withdraw from the project and surrender the associated ISTS Connectivity grant due to economic and execution-related challenges during Fiscal Year 2025. The Group has paid liquidated damages of US\$ 2,102 thousands in Fiscal Year 2026 against provision recognized in Fiscal Year 2025.

6. Current size of operations (continued):

C. Business Overview

Azure is one of India’s leading utility scale renewable energy project developers and operators. We build, own, and operate large renewable energy projects that supply clean energy to India’s power grid. We developed India’s first utility-scale solar power project in 2009 and have grown to achieve substantial scale in the Indian renewable industry. Our operational power plants are spread over 12 Indian states (including one Union Territory), with a total operating capacity of 3,041 MW including rooftop capacity as at March 31, 2026.

The map below outlines our operational portfolio as at March 31, 2026 (excluding our rooftop portfolio of 93 MW).

6. Current size of operations (continued):

We sell renewable power under long term PPAs, typically 25 years in duration, at a fixed tariff. The strength of our off-taker customers is fundamental to our business and more than 62% of our PPAs (operational capacity) are signed with top rated Central Government owned intermediaries such as SECI and NTPC. Our counterparty exposure for the commissioned capacity is set out below:

During FY 2026, we generated 5,791 million units of clean and green electricity for the Indian power grid. Our goal is to remain a leader in the renewable energy market in India. All our operating assets are currently solar. We intend to explore adding wind, hybrid and storage assets over time, to complement our solar generation capacity.

7. Investment in Subsidiary Companies during the year:

The Company's investment in subsidiaries stood at US\$ 758,014 thousands (net of Provision for diminution in value of investments amounting US\$ 53,873 thousands).

8. Change in nature of business, if any:

During the year under review, there has been no change in nature of business carried out by the Company.

9. License:

The Company was granted a Category 1 Global Business License issued by the Financial Services Commission of Mauritius on February 2, 2015. Following the Finance Act 2018, the Category 1 Global Business Company has been renamed to Global Business Corporation. The Company also falls within the definition of a reporting issuer in accordance with Securities Act 2005 of Mauritius.

10. Details of significant and material orders passed by the regulators or courts or tribunals impacting the going concern status and Company's operations in future:

As the Company has previously disclosed, a class action lawsuit was filed in the U.S. District Court for the Southern District of New York, against the Company and certain of its former directors and officers alleging violations of U.S. securities laws. As of March 31, 2025, the Company had recognised a provision of US\$ 23,000 thousands on account of the settlement. and which was duly settled during the year ended March 31, 2026.

11. Internal financial controls:

Management's Report on Internal Control Over Financial Reporting

Management is responsible for establishing and maintaining adequate internal control over financial reporting. Internal control over financial reporting includes maintaining records that, in reasonable detail, accurately and fairly reflect our transactions; provide reasonable assurance that transactions are recorded as necessary for preparation of our financial statements; provide reasonable assurance that receipts and expenditures of company assets are made in accordance with management authorization; and provide reasonable assurance that unauthorized acquisition, use or disposition of company assets that could have a material effect on our financial statements would be prevented or detected on a timely basis. Because of its inherent limitations, internal control over financial reporting is not intended to provide absolute assurance that a misstatement of our financial statements would be prevented or detected. Also, projections of any evaluation of the effectiveness of internal control over financial reporting to future periods are subject to the risk that the controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Management used the Committee of Sponsoring Organizations of the Treadway Commission Internal Control—Integrated Framework (2013), or the COSO framework, to evaluate the effectiveness of our internal control over financial reporting. Management has assessed the effectiveness of our internal control over financial reporting as of March 31, 2026 and has concluded that such internal control over financial reporting is effective.

12. Risk Factors

The Company actively assesses, monitors and seeks to mitigate risks in its business. Azure Power as a group have categorized and organized our risk factors set forth below:

Financial Risks

1. *Our cash reserves and cash flows may be insufficient to meet our working capital requirements and expansion plans absent further financing. Accordingly, our failure to obtain additional financing on acceptable terms and in a timely manner could materially and adversely affect our financial condition and cash flows.*
2. *Any downgrade of our credit rating may result in increase in interest cost or may trigger covenant defaults under our loan agreements.*
3. *If we fail to comply with financial and other covenants under our loan agreements, our business, results of operations, financial condition and cash flows may be materially and adversely affected.*
4. *Our substantial indebtedness and volatility in interest rates could adversely affect our business, results of operations, financial condition and cash flow.*
5. *We were not profitable in the past two fiscal years, and we may not be profitable in the future.*
6. *Fluctuations in foreign currency exchange rates may negatively affect our revenue, cost of sales and gross margins and could result in exchange losses.*
7. *Our operating results may fluctuate from period to period, which could make our future performance difficult to predict and could cause our operating results for a particular period to fall below expectations.*
8. *Construction and Execution Challenges in Renewable Energy Projects May Affect Project Timelines, Costs and Returns.*
9. *Adverse Tax Assessments & Litigations, Regulatory Actions and Related Liabilities May Adversely Affect Our Liquidity, Cash Flows and Financial Position.*

12. Risk Factors (continued):

Compliance and Concentrated risk related to our PPA's and fixed tariff.

- 1. We have conducted investigations into whistle-blower complaints and other allegations against persons who served as our directors, officers and employees. We reported the allegations and information identified to the SEC and the U.S. Department of Justice and continue to cooperate with these authorities.*
- 2. Our international corporate structure and operations require us to comply with anti-corruption laws and regulations of various jurisdictions. If we are not in compliance with applicable legal requirements, we may be subject to civil or criminal penalties and other remedial measures.*
- 3. Any damages caused by fraud, corruption, or other misconduct by our employees and former employees could adversely affect our business, the results of operations, financial condition and cash flows.*
- 4. We had identified material weaknesses in our internal control over financial reporting in earlier years which was remediated during Fiscal Year 2025. If we fail to maintain an effective system of internal controls over financial reporting in the future, we may not be able to accurately or timely report our financial results, which may adversely affect investor confidence.*
- 5. Our construction activities may be subject to cost overruns or delays which may adversely affect our business, results of operations, financial condition and cash flows.*
- 6. Delays in obtaining, or a failure to maintain, governmental approvals and permits required to construct and operate our projects may adversely affect such projects and our business.*
- 7. We may not be able to sign PPAs for balance capacity of 567 MWs in respect of the 4,000 MWs manufacturing linked tender for which letter of award has already been received.*
- 8. Our PPAs may be terminated upon the occurrence of certain events.*
- 9. Restriction in transfer of PPAs.*

Risks Related to Retention of Management and Key Employees

- 1. The loss of our senior management or key employees may adversely affect our ability to conduct our business.*

Off taker risks related to compliance with the terms of PPAs, delay in payments, and LoAs cancelled

- 1. Counterparties to our PPAs may not fulfil their obligations which could materially and adversely affect our business, results of operations, financial condition and cash flows.*
- 2. There are a limited number of strong credit purchasers of utility scale quantities of electricity which exposes us to risk of LoA cancellations, and our utility scale projects to risk.*

Power Generation Risks

- 1. Any constraints in the availability of the electricity grid, including our inability to obtain access to transmission lines in a timely and cost-efficient manner could adversely affect our business.*
- 2. Maintenance and expansion of power generation facilities involve significant risks that could result in reduced power generation and financial results.*

Changes in the political, fiscal or regulatory environment in India

- 1. The regulatory and policy environment affecting the renewable energy sector in India impacts our business.*
- 2. Duties on solar equipment imports increase our costs and adversely impact our performance.*
- 3. Foreign investment laws in India include certain restrictions, which may affect our future assets sales, acquisitions or investments in India.*
- 4. Our ability to raise foreign capital may be constrained by Indian law.*

Health, Safety and Environmental Risks

- 1. Our operations have inherent safety risks and hazards that require continuous oversight and substantial insurances coverage.*
- 2. Our operations are subject to governmental, health, safety and environmental regulations, and we may have to incur material costs to comply with these regulations.*

Competition Risks

- 1. We may not be able to acquire rights to develop and generate power from new renewable projects through the competitive bidding process.*
- 2. We face significant competition from traditional and renewable energy companies.*

12. Risk Factors (continued):

IT and cyber security risks

1. *Weaknesses, disruptions, failures or cyber security events in our IT systems could adversely impact our business.*

Risks related to project land, the acquisition of land and projects under pipeline

1. *We may not be able to find suitable sites for the development of renewable energy projects.*
2. *Land title in India can be uncertain, and it may be subject to onerous conditions which may restrict its use.*
3. *We do not completely own all the land on which we operate.*
4. *Our Renewable Energy Pipeline Is Subject to Development, Connectivity and Regulatory Risks That May Impact Future Growth and Financial Performance*

Risks Related to Litigation and Legal Proceedings

1. *We may become involved in costly and time-consuming litigation, arbitration and other regulatory proceedings, which require significant attention from our management.*
2. *An action alleging violations of U.S. securities laws has been brought against our Company in the New York and same has been settled during the year.*

External Risks Including the Global Economy, Unrest, Terrorism War, Downgrading of India's Debt

1. *Any downgrading of India's sovereign debt rating by an international rating agency could adversely impact our business, results of operations, financial condition and cash flows.*

Risks Related to Our Corporate Structure, Control of our Business and Investments in Mauritius Companies

1. *Our Company will have to rely principally on dividends and other distributions on equity paid by its operating subsidiaries and limitations on their ability to pay dividends to our Company could adversely impact your ability to receive dividends on our Company's equity shares.*
2. *Anti-takeover provisions in our Company's constitutional documents could make an acquisition of us more difficult and may prevent attempts by our Company's shareholders to replace or remove our Company's current management.*
3. *Our Company's largest shareholder owns 53.4% of our shares and may exercise control of our Company.*
4. *You may have difficulty enforcing judgments against our Company, our Company's directors and management. Further, investors may not be able to enforce a judgment of a foreign court against our Indian subsidiaries, certain of our Company's directors, or our key management, except by way of a suit in India on such judgment.*
5. *Sales of a substantial number of our Company's shares by our Company or our Company's existing shareholders, could cause our Company's share price to fall.*
6. *Future issuances of any equity securities may cause a dilution in your shareholding, decrease the trading price of our equity shares, and restrictions agreed to as part of debt financing arrangements may place restrictions on our operations.*

Tax Risks for Shareholders and Investors

1. *You may be subject to Indian taxes on income arising through the sale of our shares.*

13. Deposits:

The Group has not accepted any deposits from public and hence, no amount on account of principal or interest on deposits from public was outstanding as on the date of the balance sheet.

14. Auditor:

The Company has paid a fee of US\$ 39,330 for statutory audit to ECOVIS (Mauritius). ECOVIS (Mauritius) continues as the statutory auditors for the fiscal year ended March 31, 2026.

15. Auditor's Report on Financial Statements:

The Financial statements of the Group and the Company have been prepared in accordance with the United States Generally Accepted Accounting Principles ("USGAAP") and in compliance with the requirements of the Mauritius Companies Act 2001. The auditor of the Company has not given any qualified opinion on the Consolidated Financial Statements for the Group and separate financials of the Company.

16. Material changes and commitments, if any, affecting the financial position of the company which have occurred between the end of the financial year of the company to which the financial statements relate and the date of the report

No material changes apart from those which have already been disclosed in the financial statements, have occurred subsequent to the close of the financial year of the Company to which the balance sheet relates and the date of the report.

For more information, please refer to "Note 29" of the Financial Statement for FY'26 annexed herewith.

17. Share Capital:

a) Issue of employee stock options:

The Company has a 2015 Stock Option Plan and 2016 Equity Incentive Plan and as amended on March 31, 2020 (collectively “ESOP Plans”) duly approved by the Board and had 2,023,744 stock options in the employee stock option pool as of March 31, 2021. Under the ESOP Plans, the Compensation Committee on behalf of Board of Directors (the “Directors”) may from time to time make grants to one or more employees, determined by it to be eligible for participation under the plans.

The Compensation Committee determines which employees are eligible to receive the equity awards, the number of equity awards to be granted, the exercise price, the vesting period and the exercise period. The vesting period will be decided by the Compensation Committee as and when any grant takes place. All options granted under these plans shall vest over a period of 4 years from the date of grant with 25% vesting at the end of year one, 25% vesting at the end of year two, 25% vesting at the end of year three and 25% vesting at the end of year four unless specified otherwise. Shares forfeited by the Company are transferred back to the employee stock pool and shall be available for new grants.

Options are deemed to have been issued under these plans only to the extent actually issued and delivered pursuant to a grant. To the extent that a grant lapses or the rights of its grantee terminate, any equity shares subject to such grant are again available for new grants.

The option grant price may be determined by the Compensation Committee and is specified in the option grant. The grant is in writing and specifies the number of options granted the price payable for exercising the options, the dates on which some or all of the options shall be eligible for vesting, fulfilment of the performance and other conditions, if any, subject to when vesting shall take place and other terms and conditions thereto. The option grant can be exercised only by the employees/ Key Managerial personnel (KMP) of the Group.

b) Provision of money by company for purchase of its own shares by employees or by trustees for the benefit of employees:

The Company has not made any provision for purchase of its own shares by employees or by trustees for the benefit of employees.

18. Directors

As at date of this Report, the following were the Directors of the Company:

<u>Name of Directors</u>	<u>Age</u>	<u>Position</u>
Brijesh Mehra	62	Chairman of the Board of Directors
Muhammad Khalid Peyrye	47	Director
Jean-François Joseph Boisvenu	60	Director
Kamnee Dhotah Matabudul	37	Director
Richard Payette	65	Lead independent Director
Philippe Pierre Wind	59	Director
Julian Suresh Paul Gratiaen	47	Director
Pratibha Bajaj	42	Director
Ambuj Agrawal	48	Director (from July 15, 2026)

19. Number of meetings of the Board of Directors:

For the year under review, the Board met 6 times and passed 12 Director resolutions.

20. Nomination and Remuneration Committee:

As at the date of this report, the Nomination and Remuneration Committee is composed of four members who are as follows:

Brijesh Mehra	Chairperson
Jean-Francois Joseph Boisvenu	Member
Julian Suresh Paul Gratiaen	Member
Philippe Pierre Wind	Member

21. Audit and Risk Committee:

As at the date of this report, the Audit and Risk Committee is composed of four members who are as follows:

Richard Payette	Chairperson
Julian Suresh Paul Gratiaen	Member
Jean-François Joseph Boisvenu	Member
Pratibha Bajaj	Member

Ms. Pratibha Bajaj was appointed as members of the Audit and Risk Committee on October 23, 2024.

22. Investment and Capital Committee:

As at the date of this report, the Investment and Capital Committee is composed of four members who are as follows :

Pratibha Bajaj	Chairperson
Richard Payette	Member
Julian Suresh Paul Gratiaen	Member
Brijesh Mehra	Member

Mr. Jaime García Nieto resigned as chairperson of the Investment & Capital Committee on April 18, 2025. Ms. Pratibha Bajaj was appointed as chairperson of the Investment & Capital Committee on May 22, 2025.

23. Finance Committee:

As at the date of this report, the Finance Committee is composed of one member who is as follows:

Sunil Kumar Gupta	Member
-------------------	--------

Mr. Sugata Sircar was member and resigned with effect from September 30, 2025.

24. Sustainability & Corporate Social Responsibility Committee:

As at the date of this report, the Sustainability & Corporate Social Responsibility (“CSR”) Committee is composed of three members who are as follows:

Brijesh Mehra	Chairperson
Richard Payette	Member
Philippe Pierre Wind	Member

25. Other Committees:

Special committees may be formed from time to time as required to review particular matters or transactions.

In addition, a Special Committee of the Board was convened in August 2022 to review material projects and contracts over a three-year period for anti-corruption and related compliance issues. This Special Committee is currently comprised of Mr. Julian Suresh Paul Gratiaen and Mr. Jean-François Joseph Boisvenu.

26. Risk management policy:

The Company’s has laid down a risk management policy (hereafter referred to as the “policy”) that details the guidelines for implementation of the risk management framework across the Group.

This policy outlines the Group’s approach to managing risks in accordance with the COSO ERM Framework and ISO 31000 with an aim to integrate risk management into the organization's governance, strategy, and decision-making processes to support the achievement of its objectives and safeguard its assets, reputation, and stakeholders. This helps in achieving the strategic objectives by recognizing the risks that may impact the Group and minimizing the adverse consequences arising from their occurrence. The policy supports the Group’s endeavour to design, implement, monitor, review, and continually improve its risk management practices, as well as ensure wider participation in creating a sustainable risk aware culture across the Group.

27. Contracts and Arrangements with Related parties:

The Audit & Risk Committee and Board of Directors of Holding Company approved and adopted the RPT Approval Framework at its meeting held on 10th December 2025, which provides for omnibus approvals for recurring and ordinary-course related party transactions subject to defined limits, governance requirements and periodic reporting.

All contracts/arrangements/transactions entered by the Group and the Company during the period under audit with related parties were in the ordinary course of business and on an arm’s length basis.

28. Directors’ Responsibility Statement:

The Company’s directors are responsible for the preparation and fair presentation of the consolidated and separate financial statements, comprising of, the statements of assets and liabilities as at March 31, 2026 and the statements of operations, comprehensive loss, preferred shares and shareholders’ equity and cash flows for the year ended, and the notes to the consolidated and separate financial statements, which include a summary of accounting policies and other explanatory notes, in accordance with accounting policies generally accepted in the United States (“GAAP”) and in compliance with the requirements of the Mauritius Companies Act 2001.

The directors’ responsibility includes: designing, implementing and maintaining internal control relevant to the preparation and fair presentation of these consolidated and separate financial statements that are free from material misstatements, whether due to fraud or error; selecting and applying appropriate accounting policies and making estimates that are reasonable in the circumstances.

The financial statements have been prepared on the basis the Group and the Company is a going concern. The Company has an Audit & Risk Committee which consists of Mr. Richard Payette, Mr. Julian Suresh Paul Gratiaen, Ms. Pratibha Bajaj and Mr. Jean-François Joseph Boisvenu.

29. Human resource development and industrial relations:

The Group believes that the development of employees is one of the most important enablers for an organization. This is being done at both individual and team levels. Sustained development of its employees, professional and personal, is the hallmark of its human resource policies. The Group values its Human Resources and is committed to ensure employee satisfaction, development and growth.

The Group is working towards developing a culture of nurturing leaders, encouraging creativity and openness. Cordial industrial relations and improvements in productivity were maintained at all of the Group's Plants and Offices during the year under review.

30. Vigil mechanism

The Company is dedicated to fostering and maintaining the highest standards of ethics, integrity, and compliance in all aspects of our business and is committed to a work environment that is free from harassment, intimidation, discrimination and retaliation of any kind. Our commitment to these principles includes ensuring that employees have a safe and secure avenue to report any concerns. We encourage all employees and stakeholders to speak up without fear of retaliation when they observe any behavior that may violate our company policies or any applicable laws and regulations. The Company takes all complaints seriously and is dedicated to addressing them promptly and impartially to safeguard the interests of our organization and our employees.

Copies of our Whistleblower and Anti-Retaliation Policy are available on the "Investor Relations" page of our corporate website <https://azurepower.com/public/storage/documents/whistleblower-and-anti-retaliation-policy.pdf>

As the Company has disclosed in its filings since 2022, in May and September of 2022, the Company received whistleblower complaints and initiated internal investigations headed by the Audit and Risk Committee (the "ARC Investigation") and the Special Committee established in August 2022 (the "Special Committee Investigation"). The committees initiated separate investigations with the support of external counsels and forensic advisors. At the direction of the Board, external counsel for the committees initiated a voluntary self-disclosure on behalf of the Company to the U.S. Department of Justice and the Securities and Exchange Commission (the "U.S. Government"). The Company continues to cooperate with the U.S. Government's investigations.

The ARC Investigation was concluded in the previous fiscal year.

The Special Committee Investigation, which is substantially complete, identified evidence that individuals formerly affiliated with the Group may have had knowledge of, or were involved in, an apparent scheme with persons outside the Group to make improper payments in relation to certain projects. To date, the Special Committee has not identified related improper payments or transfers by the Group. The Special Committee's review and the information it identified have impacted the decision-making of the Group in connection with such projects.

On November 20, 2024, a grand jury in the Eastern District of New York indicted former Company directors Cyril Cabanes and Deepak Malhotra, former Azure executives Ranjit Gupta and Rupesh Agarwal, and several other individuals (unrelated to the Group) for alleged conduct related to the Special Committee Investigation. Separately, on November 20, 2024, the SEC brought complaints against former director Cyril Cabanes and other individuals (unrelated to the Group) for alleged conduct related to the Special Committee Investigation. The Company is not a defendant in either action. On May 18, 2026, the U.S. Department of Justice moved to dismiss the criminal indictment with prejudice. The United States District Court has not yet ruled on that motion.

Our Group (specifically our subsidiaries with respect to affected projects) could be exposed to liabilities under the relevant contractual and tender documents (including levy of damages and liquidated damages, reduction of PPA tariffs and/or short closure of capacity), administrative actions (including the risk of PPA cancellation, risk of being debarred from SECI's future contracts, withdrawal or nullification of commissioning certificates and/or revocation of commissioning extensions) and penalties from customers and other civil liabilities, all of which could adversely impact the revenue, profitability and capitalization of the affected projects. In addition, civil and/or criminal fines and/or penalties by regulatory authorities (including by the U.S. Government and applicable Indian and Mauritian regulatory authorities) could be imposed on us as well as ongoing obligations, remedial corporate measures or other relief against us that could adversely impact our operations. Any such fines, penalties, ongoing obligations or other measures or relief against us could materially and adversely affect our business, results of operations, financial condition and cash flows in future periods. Further, certain of those outcomes could adversely impact our ability to maintain compliance with the covenants under our credit facilities or result in an event of default thereunder. In addition, we could be exposed to future litigation in connection with any findings of fraud, corruption, or other misconduct by persons who served as our directors, officers and employees.

31. Acknowledgements:

The Directors extend their sincere appreciation for the assistance and co-operation received from the financial institutions, banks and Government Authorities. The Directors appreciate and value the support from all the Shareholders of the Company. The Directors also place on record their deep sense of appreciation for the committed services by the Group's executive and staff.

32. Cautionary Statement:

Statements in this Board's Report describing the Group's present position, expectations or forecasts may be forward-looking within the meaning of applicable laws and regulations. Actual results may differ from those expressed in the statement. Important factors that could influence the Group's operations include global and domestic demand and supply conditions, changes in government regulations, tax laws, economic developments within the country and other factors such as litigation and industrial relations.

INDEPENDENT AUDITOR'S REPORT

To the Shareholders of Azure Power Global Limited

Report on the Audit of the Consolidated and Separate Financial Statements

Opinion

We have audited the consolidated and separate financial statements of Azure Power Global Limited (the "Company") and its subsidiaries (the "Group") which comprise the consolidated and separate statements of assets and liabilities as at March 31, 2026, the consolidated and separate statements of operations, consolidated and separate statements of comprehensive loss, consolidated and separate statements of preferred shares and shareholder's equity and consolidated and separate statements of cash flows for the year then ended, and the notes to the consolidated and separate financial statements, comprising a summary of material accounting policies and other explanatory information.

In our opinion, the accompanying consolidated and separate financial statements on pages 22 to 55 gives a true and fair view of the consolidated and separate financial position of the Group and the Company as at March 31, 2026, and their consolidated and separate financial performance and their consolidated and separate cash flows for the year then ended in accordance with generally accepted accounting principles in the United States of America and in compliance with the requirements of the Mauritius Companies Act 2001.

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the consolidated and separate financial statements* section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

We are independent of the Group and the Company in accordance with *International Ethics Standards Board for Accountants Code of Ethics for Professional Accountants (IESBA Code)*, and we have fulfilled our other ethical responsibilities in accordance with the IESBA Code.

Going Concern

We draw attention to Note 28 in the consolidated financial statements, which describes certain ongoing investigations and legal proceedings on the Group, the outcome of which are unascertained at this stage. The management has assessed the Group's ability to continue as a going concern and the mitigating actions that have been deployed to address the effects on the Group.

Based on the audit evidence obtained, we have not identified a material uncertainty related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report and are not a guarantee as to the Company's ability to continue as a going concern.

Our audit report is not modified in respect of above matter.

Emphasis of matter

We draw attention on the following matter:

- a) Refer Note 28 to the consolidated financial statements, wherein the Company has voluntarily disclosed certain matters to the U.S. Securities and Exchange Commission and the U.S. Department of Justice. Engagement and cooperation with the aforesaid authorities is continuing on those matters. We are informed that any potential liability or penalty from authorities cannot be assessed at this stage.

Our audit report is not modified in respect of above matter.

INDEPENDENT AUDITOR'S REPORT
To the Shareholders of Azure Power Global Limited
Report on the Audit of the Consolidated and Separate Financial Statements (Continued)
Key audit matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the consolidated and separate financial statements of the current period. These matters were addressed in the context of our audit of the consolidated and separate financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Key audit matter	How our audit addressed the key audit matter
The Group Contingencies for investigations, lawsuits and other legal proceedings As discussed in Note 20 and 28 to the consolidated financial statements, due to the ongoing investigations, lawsuits and other legal proceedings, management is of the view, that the Group might be exposed to certain liabilities such as levy of damages, reduction of PPA tariffs, administrative actions from lenders including the risk of PPA cancellation, all of which could adversely impact the revenue, profitability, and capitalization of the affected projects. Any such fines or penalties could materially and adversely affect the Group's results of operations, financial condition, and cash flows in future periods.	• We obtained and evaluated management's assessment and representation stating that no triggering event such as demand or any potential notice from any lender or regulator has happened, except the ongoing inquiries from U.S. Securities and Exchange Commission and the U.S. Department of Justice. • The discussions and disclosures to the U.S. Securities and Exchange Commission and the U.S. Department of Justice are ongoing and the Company is cooperating with all the issues raised by the regulators and based on submissions made till date, the management has confirmed that impact of the above matter is not ascertainable and hence no adjustment has been done in the consolidated financial statements (also refer paragraph on Going Concern). • We independently corresponded with the investigators and obtained written response from them. • We enquired with management and Audit and Risk Committee of the Board of Directors of the Company about the facts and obtained the representation in writing in this respect. • Considering the potential liabilities which are not presently ascertainable, we have reported the matter by way of emphasis of matter paragraph in this audit report (refer Emphasis of Matter paragraph (a) above).

INDEPENDENT AUDITOR'S REPORT
To the Shareholders of Azure Power Global Limited
Report on the Audit of the Consolidated and Separate Financial Statements (Continued)
Key audit matters (continued)

Key audit matter	How our audit addressed the key audit matter
The Group Impairment and other estimates of Property, Plant & Equipment (PPE) As disclosed in Note 24 to the consolidated financial statements, the Group uses various inputs to assess indicators of impairment as well as evaluate the need to recognise any impairment provision. Also, the Group relies on various third-party expert reports for the purpose of estimation (e.g. useful life, fair valuation etc). Any departure/deviation in the estimates used will have a significant bearing on the carrying value of the PPE.	• We have reviewed the third-party reports as made available to us and as applicable and the inputs used by management in determining the estimates and have performed following procedures: - We assessed the qualifications, independence, and objectivity of the external experts engaged by management to perform the fair value assessments. We reviewed the scope and terms of their engagement to ensure it aligns with audit requirements. - We reviewed the expert reports, including their methodologies, assumptions, data sources, and findings. We assessed whether the reports were consistent with relevant accounting standards and industry best practices. We compared the expert report's conclusions and valuations to the estimates provided by management. • We evaluated management's process for identifying indicators of impairment, including changes in market conditions, technological advancements, economic factors, or internal issues that may suggest a potential impairment of PPE. • We assessed the appropriateness of management's methods and assumptions used to determine the fair value of PPE when impairment indicators were present. This involved evaluating the selection of valuation models, discount rates, and the use of external experts, if applicable. • We reviewed the documentation and underlying data used by management in their impairment assessment and fair value determination. This included examining historical financial data, market information, and internal reports.

INDEPENDENT AUDITOR'S REPORT
To the Shareholders of Azure Power Global Limited
Report on the Audit of the Consolidated and Separate Financial Statements (Continued)
Key audit matters (continued)

Key audit matter	How our audit addressed the key audit matter
The Company Impairment of investments in subsidiaries As disclosed in Note 10, the investments in subsidiaries as at March 31, 2026 amounted to USD 758 million, net of impairment. Investments in subsidiaries are measured at cost less impairment. The impairment charge recognised for the year ended March 31, 2026 is USD nil (2025: USD 8.2 million) as disclosed in Note 10. The measurement of investments in subsidiaries and the related impairment has been identified as a key audit matter due to the complexity and significant judgement involved in determining the recoverable amount of these investments and thus the impairment amount, if any.	The procedures performed with respect to the appropriate measurement of investments in subsidiaries and related impairment include: • Critically assessed through an analysis of internal and external factors impacting the entity, whether there were any indicators of impairment. • Wherever there were any indicators of impairment, obtained forecasted cash flows and challenged the assumptions made. • Verified the arithmetical accuracy of the calculations. • Verified that proper disclosure has been made with respect to any impairment.

Responsibilities of Directors and Those Charged with Governance for the Consolidated and separate financial statements

The directors are responsible for the preparation and fair presentation of the consolidated and separate financial statements in accordance with generally accepted accounting principles in the United States of America, and that comply with the requirements of the Mauritius Companies Act 2001, and for such internal control as the directors determine is necessary to enable the preparation of the consolidated and separate financial statements that are free from material misstatement, whether due to fraud or error. In preparing the consolidated and separate financial statements, the directors are responsible for assessing the Group and Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group and the Company or to cease operations, or have no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Group and the Company's financial reporting process.

INDEPENDENT AUDITOR'S REPORT

To the Shareholders of Azure Power Global Limited

Report on the Audit of the Consolidated and Separate Financial Statements (Continued)*Auditor's Responsibilities for the Audit of the Consolidated and separate financial statements*

Our objectives are to obtain reasonable assurance about whether the consolidated and separate financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated and separate financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- ▶ Identify and assess the risks of material misstatement of the consolidated and separate financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- ▶ Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group and the Company's internal control.
- ▶ Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- ▶ Conclude on the appropriateness of directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group and the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated and separate financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group and the Company to cease to continue as a going concern.
- ▶ Evaluate the overall presentation, structure and content of the consolidated and separate financial statements, including the disclosures, and whether the consolidated and separate financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- ▶ Obtain sufficient appropriate audit evidence regarding the financial information of the entities of business activities within the Group to express an opinion on the consolidated and separate financial statements. We are responsible for the direction, supervision and performance of the audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

INDEPENDENT AUDITOR'S REPORT

To the Shareholders of Azure Power Global Limited

Report on the Audit of the Consolidated and separate financial statements (Continued)*Other information*

The Directors are responsible for the other information. The other information comprises the information included in the document titled "Azure Power Global Limited Financial Statements for the year ended March 31, 2026", which included the Management and Administration, the Directors' report to the Members and the Secretary's Certificate to the Members as required by the Mauritius Companies Act 2001. The other information does not include the consolidated and separate financial statements and our auditor's report thereon.

Our opinion on the consolidated and separate financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated and separate financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated and separate financial statements, or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact.

We have nothing to report in this regard.

Report on Other Legal and Regulatory Requirements

Mauritius Companies Act 2001

We have no relationship with or interests in the Company or any of its subsidiaries other than in our capacities as auditor and tax advisor of the Company.

We have obtained all the information and explanations we have required.

In our opinion, proper accounting records have been kept by the Company as far as it appears from our examination of those records.

Other matter

Our report is made solely to the shareholders of the Company, as a body, in accordance with Section 205 of the Mauritius Companies Act 2001 and for no other purpose. We do not, in giving this opinion, accept or assume responsibility for any other purpose or to any other person to whom this report is shown or into whose hands it may come save where expressly agreed by our prior consent in writing.

⁽¹⁾ Includes US\$ 33,511 thousands and US\$ 44,526 thousands towards receipt (net) on account of hedge settlement for Solar Green Bonds for the year ended March 31, 2025 and March 31, 2026 respectively.

AZURE POWER GLOBAL LIMITED
Notes to Consolidated and Separate Financial Statements
(US\$ amounts in thousands except share and per share data)

1. Organization

Azure Power Global Limited (“APGL” or “Azure” or “the Company”) organized under the laws of Mauritius was incorporated on January 30, 2015. APGL’s subsidiaries are organized under the laws of India (except for one U.S. indirect subsidiary and two direct subsidiaries in Mauritius) and are engaged in the development, construction, ownership, operation, maintenance and management of renewable energy assets based on long-term contracts (Power Purchase Agreements or “PPA”) with Indian State government energy distribution companies as well as other Indian non-governmental energy distribution companies and Indian commercial customers. APGL and its subsidiaries are hereinafter referred to as the “Group”.

2. Summary of material accounting policies

(a) Basis of presentation

The accompanying consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States (“GAAP”) and are presented in US\$ in thousands, unless otherwise stated. The Directors are of the view that the Group will be able to meet its financial obligations in the next financial year. Accordingly, they continue to adopt the going-concern basis in preparing the Group’s Consolidated Financial Statements.

All share and per share amounts presented in the consolidated financial statements have been adjusted to reflect the 16-for-1 stock split of the Company’s equity shares that was effective on October 6, 2016.

(b) Use of estimates

The preparation of consolidated financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues, costs, expenses and comprehensive loss/ gain that are reported and disclosed in the consolidated financial statements and accompanying notes. These estimates are based on management’s best knowledge of current events, historical experience, actions the Group may undertake in the future and on various other assumptions that are believed to be prudent and reasonable under the circumstances. Significant estimates and assumptions are used for, but not limited to impairment of and useful lives of property, plant and equipment, determination of asset retirement obligations, valuation of derivative instruments, hedge accounting, lease liabilities, right to use asset, allowances for doubtful accounts based on payment history, credit rating, valuation of share-based compensation, income taxes, energy kilowatts expected to be generated over the useful life of the solar power plant, estimated transaction price, including variable consideration, of the Group’s revenue contracts, impairment of other assets, impairment of net assets classified as held for sale and other contingencies and commitments. Although these estimates are based upon management’s best knowledge of current events and actions, actual results could differ from these estimates, and such differences may be material to the consolidated financial statements.

Principles of Consolidation

The accompanying consolidated financial statements include the accounts of APGL, its subsidiaries, and variable interest entities (“VIE”), where the Group determined it is the primary beneficiary and are prepared in conformity with accounting principles generally accepted in the United States of America (“U.S. GAAP”). The Group uses the equity method to account for its investments in entities where it exercises significant influence over operating and financial policies but does not retain control under either the voting interest model (generally 20% to 50% ownership interest) or the variable interest model. The Group eliminated all intercompany accounts and transactions.

(c) Foreign currency translation and transactions

The functional currency of the Company is the United States Dollar (“US\$”). The Company’s subsidiaries with operations in India use INR as the functional currency and the subsidiaries in the United States and Mauritius use US\$ as functional currencies. The financial statements of the Company’s subsidiaries are translated into US\$ using the closing exchange rate as of the balance sheet date for assets and liabilities and average exchange rate for the year for income and expense items. Translation gains and losses are recorded in accumulated other comprehensive income or loss as a component of shareholders’ equity.

In the financial statements of the Company’s subsidiaries, transactions in currencies other than the functional currency are measured and recorded in the functional currency using the exchange rate in effect at the date of the transaction. At the balance sheet date, monetary assets and liabilities that are denominated in currencies other than the functional currency are translated into the functional currency using the exchange rate at the balance sheet date. All gains and losses arising from foreign currency transactions are recorded in the determination of net income or loss during the year in which they occur.

Revenue, expense and cash flow items are translated using the average exchange rates for the respective year. The resulting gains and losses from such translation are excluded from the determination of earnings and are recognized instead in accumulated other comprehensive loss, which is a separate component of shareholders’ equity.

Realized and unrealized foreign currency transaction gains and losses, arising from exchange rate fluctuations on balances denominated in currencies other than the functional currency of an entity, such as those resulting from the Group’s and Company’s borrowings in other than functional currency is included in ‘(Gain)/loss on foreign currency exchange, net’ in the consolidated statements of operations.

AZURE POWER GLOBAL LIMITED
Notes to Consolidated and Separate Financial Statements
(US\$ amounts in thousands except share and per share data)

2. Summary of material accounting policies (continued)

(d) Cash and cash equivalents

Cash and cash equivalents include cash on hand, demand deposits with banks, term deposits and all other highly liquid investments purchased with an original maturity of three months or less at the date of acquisition and that are readily convertible to cash. The Group classified term deposits totaling US\$ 85,754 thousands and US\$ 110,945 thousands and US\$ 1,700 thousands and US\$ 2,940 thousands for the Company as at March 31, 2025 and 2026, respectively, as cash and cash equivalents, because they have ability to redeem these deposits at any time subject to an immaterial interest rate forfeiture. All term deposits are readily convertible into known amount of cash with no more than one day's notice.

(e) Restricted cash

Restricted cash consists of cash balances restricted as to withdrawal or usage and relates to cash used to collateralize bank letters of credit supporting the purchase of equipment for solar power plants, bank guarantees issued in relation to the construction of the solar power plants within the timelines stipulated in PPAs and for certain debt service reserves required under the Group's loan agreements. Restricted cash is classified into current and non-current portions based on the term of the deposit and the expiration date of the underlying restriction.

The following table presents the components of cash, cash equivalents and restricted cash included in the consolidated balance sheet that sums to the total of the same such amounts in the Consolidated Statements of Cash Flows:

	March 31,	
	2025	2026
	(US\$)	(US\$)
	(in thousands)	
Current Assets		
Cash and cash equivalents	101,307	120,476
Restricted cash	107,405	104,432
Non-Current Assets		
Restricted cash	985	2,169
Cash and cash equivalents and restricted cash	209,697	227,077

(f) Investments

The Group and the Company determine the appropriate classification of investment securities at the time of purchase and re-evaluates such designation at each balance sheet date. The investment securities held by the Group and the Company during the year presented in the accompanying financial statements were classified as available for sale (short-term investments).

The Group and the Company account for its investments in accordance with Financial Accounting Standards Board ("FASB") ASC Topic 320, Accounting for Certain Investments in Debt and Equity Securities. These investments are considered as available for sale and held to maturity. Investments classified as available for sale are recorded at fair value, with the unrealized gains or losses, net of tax, reported as a component of accumulated other comprehensive income or loss in the statement of shareholders' equity.

Securities that the Group and the Company have positive intent and ability to hold till maturity are classified as held-to-maturity securities and stated at amortized cost. As of March 31, 2025 and March 31, 2026, the Group does not have any such investment.

Realized gains and losses and decline in value judged to be other than temporary on these investments are included in the consolidated statements of operations. The cost of securities sold or disposed is determined on First in First Out ("FIFO") method.

Investment in subsidiaries

Investments representing equity interest in subsidiaries are carried at cost. A subsidiary is an entity that is controlled by the Company. Control is evidenced where the Company has the power over the investee or exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. Power is demonstrated through existing rights that give the ability to direct relevant activities, which significantly affect the entity returns. The provision for diminution of investments as at March 31, 2025 and March 31, 2026 is US\$ 53,873 thousands and US\$ 53,873 thousands respectively. See Note 10.

(g) Accounts receivable

The Group adopted "ASC Topic 326" Financial Instruments — Credit Losses, effective April 1, 2020 using the modified retrospective transition approach. The new guidance requires the measurement and recognition of expected credit losses (ECL) for financial assets held at amortized cost and replaces the existing incurred loss impairment model with an expected loss model using the forward-looking information to calculate credit loss estimates. The new model requires consideration of a broader range of relevant information, such as offtake ratings historical loss experience, current economic conditions, and reasonable and supportable forecasts.

Credit Risk

Credit risk is the risk that counterparty will not meet its obligations under a financial instrument which consists principally of accounts receivables, cash and cash equivalents and restricted cash, leading to a financial loss. Customer credit risk is managed using the Group's established policy, procedures and control relating to customer credit risk management. Outstanding accounts receivables are regularly monitored.

The Group's accounts receivables are generated by selling energy to customers and are reported net of any allowance for uncollectible accounts. The allowance for doubtful accounts receivable is based on various factors, including the length of time receivables are past due, significant one-time events, the financial health of customers and historical experience. The allowance for doubtful accounts receivable as at March 31, 2025 and 2026 was US\$ 13,030 thousands and US\$ 7,915 thousands for the Group and US\$ Nil and US\$ Nil for the Company.

AZURE POWER GLOBAL LIMITED
Notes to Consolidated and Separate Financial Statements
(US\$ amounts in thousands except share and per share data)

2. Summary of material accounting policies (continued)

(h) Property, plant and equipment

Property, plant and equipment represents the costs of completed and operational solar power plants, as well as the cost of furniture and fixtures, vehicles, office and computer equipment, leasehold improvements, freehold land and construction in progress. Construction in progress represents the accumulated cost of solar power plants that have not been placed into service at the date of the balance sheet. Construction in progress includes the cost of solar modules for which the Group has taken legal title, civil engineering, electrical and other related costs incurred during the construction of a solar power plant. Construction in progress is reclassified to property, plant and equipment when the project begins its commercial operations.

Property, plant and equipment are stated at cost, less accumulated depreciation and impairment losses. Depreciation is calculated using the straight-line method over the assets' estimated useful lives as follows:

Plant and machinery (solar power plants).....	25-35 years
Building	25-35 years
Furniture and fixtures	5 years
Vehicles.....	5 years
Office equipment.....	1-5 years
Computers	3 years

Leasehold improvements to office facilities are depreciated over the shorter of the lease period or the estimated useful life of the improvement. Lease hold improvements on the solar power plant sites are depreciated over the shorter of the lease term or the remaining period of the PPAs undertaken with the respective customer. Freehold land is not depreciated. Construction in progress is not depreciated until it is ready for use.

Improvements to property, plant and equipment deemed to extend the useful economic life of an asset are capitalized. Maintenance and repairs that do not improve efficiency or extend the estimated economic life of an asset are expensed as incurred. Additional capacity, if any, added to property plant and equipment is depreciated over the remaining estimated useful life.

Capital spares relate to items that can be used in connection with specific items of property, plant and equipment and are expected to be used for more than one year. The cost of capital spares comprises of all costs of purchase, costs of conversion and other costs incurred in bringing to their present location and condition. Depreciation of capital spares commences when the asset is capable of being used. The depreciation charge is based on their expected useful life, which may be shorter than the useful life of the asset to which it relates. When such capital spare is replaced, the asset is derecognized.

Capitalized interest

Interest incurred on funds borrowed to finance construction of solar power plants is capitalized until the plant is ready for its intended use. The amount of interest capitalized during the years ended March 31, 2025 and 2026 was US\$ 341 thousands and US\$ 74 thousands for the Group and US\$ Nil and US\$ Nil for the Company, respectively.

(i) Accounting for impairment of long-lived assets

The Group periodically evaluates whether events have occurred that would require revision of the remaining useful life of property, plant and equipment and improvements, or render their carrying value not recoverable. If such circumstances arise, the Group uses an estimate of the undiscounted value of expected future operating cash flows to determine whether the long-lived assets are impaired. If the aggregate undiscounted cash flows are less than the carrying amount of the assets, the resulting impairment charge to be recorded is calculated based on the excess of the carrying value of the assets over the fair value of such assets, with the fair value determined based on an estimate of discounted future cash flows, appraisals, or other valuation techniques. See also note 24.

(j) Leases and land use rights

The majority of the Group's leases relate to leasehold land on which the solar power plants are constructed on and leases related to office facilities. The leasehold land related to solar power plants has a lease term ranging between 25 to 35 year which is further extendable on mutual agreement by both lessor and lessee. Where applicable, the Group has the consent from the lessors to extend the leases up to 35 years. These leases have rent escalation ranging between 5% to 15% p.a. over the tenure of the lease. As the implicit rate in the lease contract is not readily determinable, the Group has used its average incremental rate of borrowing of 10% p.a. for the purposes of the determination of discount rate. The weighted average remaining lease term for operating leases is 26 years.

The Group has made an assessment for lease arrangements entered during the year and classified them as operating leases. The Group did not have any finance lease during any of the periods presented in the accompanying consolidated financial statements.

The Group is a lessee in several non-cancellable operating leases, primarily for construction of solar power plants and for office facilities.

The Group determines if an arrangement is or contains a lease at contract inception. The Group recognizes a right-of-use ("ROU") asset and a lease liability at the lease commencement date. For operating leases, the lease liability is initially and subsequently measured at the present value of the unpaid lease payments at the lease commencement date.

Key estimates and judgments include how the Group determines (1) the discount rate it uses to discount the unpaid lease payments to present value, (2) lease term and (3) lease payments.

ASC Topic 842 requires a lessee to discount its unpaid lease payments using the interest rate implicit in the lease or, if that rate cannot be readily determined, its incremental borrowing rate. Generally, the Group cannot determine the interest rate implicit in the lease because it does not have access to the lessor's estimated residual value or the amount of the lessor's deferred initial direct costs. Therefore, the Group generally uses its incremental borrowing rate as the discount rate for the lease. The Group's incremental borrowing rate for a lease is the rate of interest it would have to pay on a collateralized basis to borrow an amount equal to the lease payments under similar terms.

AZURE POWER GLOBAL LIMITED
Notes to Consolidated and Separate Financial Statements
(US\$ amounts in thousands except share and per share data)

2. Summary of material accounting policies (continued)

(j) Leases and land use rights (continued)

The lease term for all of the Group's leases includes the non-cancellable period of the lease plus any additional periods covered by either a Group option to extend (or not to terminate) the lease that the Group is reasonably certain to exercise, or an option to extend (or not to terminate) the lease controlled by the lessor.

Lease payments included in the measurement of the lease liability comprise of the following:

- Fixed payments, including in-substance fixed payments, owed over the lease term (which includes termination penalties the Group would owe if the lease term assumes Group exercise of a termination option);
- Variable lease payments, if any, that depend on an index or rate, initially measured using the index or rate at the lease commencement date;
- Amounts expected to be payable under a Group-provided residual value guarantee; and
- The exercise price of a Group option to purchase the underlying asset if the Group is reasonably certain to exercise the option.

The ROU asset is initially measured at cost, which comprises the initial amount of the lease liability adjusted for lease payments made at or before the lease commencement date, plus any initial direct costs incurred less any lease incentives received.

For operating leases, the ROU asset is subsequently measured throughout the lease term at the carrying amount of the lease liability, plus initial direct costs, plus (minus) any prepaid (accrued) lease payments, less the unamortized balance of lease incentives received. Lease expense for lease payments is recognized on a straight-line basis over the lease term.

As at March 31, 2026, the Group recognized and reported the Right of Use asset on its consolidated balance sheet of US\$ 54,783 thousands as well as Lease Liabilities by US\$ 50,449 thousands. As at March 31, 2025, the Group recognized and reported the Right of Use asset on its consolidated balance sheet of US\$ 47,693 thousands as well as Lease Liabilities of US\$ 44,480 thousands. During the year ended March 31, 2025 and 2026, the Group recorded lease cost of US\$ 5,735 thousands and US\$ 6,602 thousands respectively. See Note 19 to the consolidated financial statements.

ROU assets for operating leases are periodically reduced by impairment losses. The Group uses the long-lived assets impairment guidance in ASC Subtopic 360-10, Property, Plant, and Equipment – Overall, to determine whether a ROU asset is impaired, and if so, the amount of the impairment loss to recognize. See Note 2(i).

The Group monitors for events or changes in circumstances that require a reassessment of one of its leases. When a reassessment results in the remeasurement of a lease liability, a corresponding adjustment is made to the carrying amount of the corresponding ROU asset unless doing so would reduce the carrying amount of the ROU asset to an amount less than zero. In that case, the amount of the adjustment that would result in a negative ROU asset balance is recorded in profit or loss.

Operating lease ROU assets are presented as operating lease right-of-use assets on the consolidated balance sheet. The current portion and the long-term portion of operating lease liabilities is presented separately as lease liabilities on the consolidated balance sheet.

The Group elected not to recognize ROU assets and lease liabilities for short-term leases of warehouses, office, machinery etc. that have a lease term of 12 months or less. The Group recognizes the lease payments associated with its short-term leases as an expense on a straight-line basis over the lease term.

The Group's corporate office leases generally also include non-lease maintenance services (i.e. common area maintenance). The Group allocates the consideration in the contract to the lease and non-lease maintenance component based on each component's relative standalone price. The Group determines stand-alone prices for the lease components based on the prices for which other lessors lease similar assets on a stand-alone basis. The Group determines stand-alone prices for the non-lease components (i.e. maintenance services) based on the prices that several suppliers charge for maintenance services for similar assets on a stand-alone basis.

(k) Asset retirement obligations (ARO)

Upon the expiration of the land lease arrangement for solar power plants located on leasehold land, the Group is required to remove the solar power plant and restore the land. The Group records the fair value of the liability for the legal obligation to retire the asset in the period in which the obligation is incurred, which is generally when the asset is constructed. When a new liability is recognized, the Group capitalizes it by increasing the carrying amount of the related long-lived asset, which results in an ARO asset being depreciated over the remaining useful life of the solar power plant. The liability is accreted and expensed to its present expected future value each period based on a credit adjusted risk free interest rate. Upon settlement of the obligation, the Group eliminates the liability and, based on the actual cost to retire, may incur a gain or loss.

The Group's asset retirement obligations were US\$ 15,418 thousands and US\$ 15,056 thousands as of March 31, 2025 and 2026, respectively. The accretion expense incurred during the years ended March 31, 2025 and 2026 was US\$ 1,230 thousands and US\$ 1,270 thousands, respectively. The depreciation expense incurred during the years ended March 31, 2025 and 2026 was US\$ 272 thousands and US\$ 260 thousands, respectively.

During the year ended March 31, 2026, the carrying amount of the ARO liability is decreased by US\$ 362 thousands primarily due to accretion expense during the year, foreign exchange fluctuation and change in estimates.

AZURE POWER GLOBAL LIMITED
Notes to Consolidated and Separate Financial Statements
(US\$ amounts in thousands except share and per share data)

2. Summary of material accounting policies (continued)

(k) Asset retirement obligations (ARO) (continued)

The movement in liability as of March 31, 2026 and March 31, 2025 is as below:

	The Group	
	As at March 31,	
	2025	2026
	US\$	US\$
Opening balance	14,642	15,418
Addition during the year	106	-
Impact of change in estimate	(177)	(68)
Liabilities settled during the year	-	-
Accretion expense during the year	1,230	1,270
Foreign exchange fluctuation	(383)	(1,564)
Closing balance	15,418	15,056

(l) Software

The amount capitalized as software includes the cost of software licenses, as well as related implementation costs, which primarily relate to third party consulting fees. Such license and implementation costs are capitalized and amortized over their estimated useful lives of three years using the straight-line method. On an ongoing basis, the Group and the Company assesses the recoverability of its capitalized software intangible assets. Capitalized software costs determined to be unrecoverable are expensed in the period in which the determination is made. As of March 31, 2026, all capitalized software were considered fully recoverable.

(m) Debt financing costs

Financing costs incurred in connection with obtaining construction and term financing loans are deferred and amortized over the term of the respective loan using the effective interest rate method. Amortization of debt financing costs is capitalized during construction and recorded as interest expense in the consolidated statements of operations, following commencement of commercial operations of the respective solar power plants.

Amortization of debt financing costs for the year ended, March 31, 2025 and 2026 was US\$ 7,865 thousands and US\$ 5,497 thousands, respectively for the Group, and US\$ 550 thousands and US\$ 1,249 thousands, respectively for the Company. Amortization of debt financing costs for the years ended March 31, 2025 and 2026 included debt financing costs written off related to the debt refinancing amounting to US\$ 1,419 thousands and US\$ 1,268 thousands, respectively for the Group, and US\$ Nil and US\$ Nil, respectively for the Company. Also, see Note 13 and 15.

The carrying value of debt financing costs as on March 31, 2025 and 2026 was US\$ 10,119 thousands and US\$ 8,505 thousands, respectively for the Group, US\$ 1,911 thousands and US\$ 1,899 thousands, respectively for the Company. Also, see note 13.

Further, the Group had debt financing costs of US\$ 335 thousands and US\$ 582 thousands under other assets and other current assets for facilities not yet drawn as on March 31, 2025 and 2026, respectively and the Company had US\$ 245 thousands and US\$ 248 thousands, respectively. Also, see note 6.

(n) Income taxes

Income taxes are recorded under the asset and liability method, as prescribed under ASC Topic 740 Income Taxes, whereby deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax base. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled.

The Group establishes valuation allowances against its deferred tax assets when it is more likely than not that all or a portion of a deferred tax asset will not be realized.

The computation of tax liabilities involves dealing with uncertainties in the application of complex tax regulations. The Group applies a two-step approach to recognize and measure uncertainty in income taxes in accordance with ASC Topic 740. The first step is to evaluate the tax position for recognition by determining if the weight of available evidence indicates that it is more likely than not that the position will be sustained on audit, including resolution of related appeals or litigation processes, if any. The second step is to measure the tax benefit as the largest amount which is more than 50% likely of being realized upon ultimate settlement through March 31, 2026, the Group does not have any unrecognized tax benefits, nor recognized any interest or penalties.

During the year ended March 31, 2020, the Taxation Laws (Amendment) Act, 2019 brought key changes to corporate tax rates in the Income Tax Act, 1961, which reduced the tax rate for certain subsidiaries within the group to 25.17%. Azure Power India Private Limited and some of its subsidiaries which are claiming tax benefits under section 80-IA of the Income Tax Act had decided not to opt for this lower tax benefit and have continued under the old regime for the year ended March 31, 2026, the statutory income tax rate as per the Income Tax Act, 1961 ranges between 25.17% to 34.94%, depending on the tax regime chosen by the particular subsidiary.

(o) Employee benefits

Defined contribution plan

Eligible employees of the Group in India receive benefits from the Provident Fund, administered by the Government of India, which is a defined contribution plan. Both the employees and the Group make monthly contributions to the Provident Fund equal to a specified percentage of the eligible employees' salary.

The Group has no further funding obligation under the Provident Fund, beyond the contributions elected or required to be made thereunder. Contributions to the Provident Fund by the Group are charged to expense in the period in which services are rendered by the covered employees and amounted to US\$ 449 thousands and US\$ 442 thousands for the years ended March 31, 2025 and 2026, respectively for the Group.

AZURE POWER GLOBAL LIMITED
Notes to Consolidated and Separate Financial Statements
(US\$ amounts in thousands except share and per share data)

2. Summary of material accounting policies (continued)

(o) Employee benefits (continued)

Defined benefit plan

Employees in India are entitled to benefits under the Gratuity Act, a defined benefit post-employment plan covering eligible employees of the Group. This plan provides for a lump-sum payment to eligible employees at retirement, death, and incapacitation or on termination of employment, of an amount based on the respective employee's salary and tenure of employment. As of March 31, 2026 and March 31, 2025, this plan is unfunded.

Current service costs for defined benefit plans is accrued in the period to which they relate. In accordance with ASC Topic 715, *Compensation Retirement Benefit*, the liability in respect of defined benefit plans is calculated annually by the Group using the projected unit credit method and amounted to US\$ 686 thousands and US\$ 965 thousands as of March 31, 2025 and 2026, respectively for the Group. Prior service cost, if any, resulting from an amendment to a plan is recognized and amortized over the remaining period of service of the covered employees. Interest costs for the years ended March 31, 2025 and 2026 were not significant. See also note, 23.

Compensated absences

The Group and the Company recognizes its liabilities for compensated absences in accordance with ASC Topic 710, *Compensation-General*. The Group and the Company accrues the liability for its employee rights to compensated absence in the year in which it is earned.

(p) Revenue recognition

Revenue from customers consists of solar energy sold to customers under long term Power Purchase Agreements (PPAs), which generally have a term of 25 years. The Group's customers are generally the Indian State Government, energy distribution companies and, as well as other Indian non-governmental energy distribution companies and Indian commercial customers. Revenue from customers include income from sale of carbon credit emissions.

The Group and the Company recognizes revenue on PPAs when the solar power plant generates power and is supplied to the customer in accordance with the respective PPA. The Group recognize revenue each period based on the volume of solar energy supplied to the customer at the price stated in the PPA once the solar energy kilowatts are supplied and collectability is reasonably assured. The solar energy kilowatts supplied by the Group are validated by the customer prior to billing and recognition of revenue. Revenues from the recovery of safe-guard duties and goods and service tax under the change in law provision are recognized over the PPA period in the proportion of the actual sale of solar energy in kilowatts as per the terms agreed with customers or unless contractually agreed otherwise, once collectability is reasonably assured. Revenue from the sale of carbon credit emissions are recognized at the point in time when control of the carbon emission reduction units is transferred. These are initially recognized at cost.

The Group and the Company applies "ASC Topic 606" Revenue from Contracts with Customers, to recognize revenue from sale of power to its customers. Further, under Topic 606, total consideration for PPAs with scheduled price changes (price escalation is applicable in a solar power plant with 50 MW of operating capacity and price decrease in a solar power plant with 10 MW of operating capacity over the term of PPA) and for significant financing components, is estimated and recognized over the term of the agreement. Price escalations create an unbilled receivable, and the price decreases create deferred revenue. The time value of the significant financing component is recorded as interest expense. The Group uses the discount rate that would be reflected in a separate financing transaction between the entity and its customer at contract inception and recognizes the revenue amount on a straight-line basis over the term of the PPAs, and interest expense using the effective interest rate method. The Group also recognizes incremental costs incurred to obtain a contract in Other Assets in the consolidated balance sheet. These amounts are amortized on a straight-line basis over the term of the PPAs and are included as a reduction to revenue in the consolidated statements of operations.

The Group also records the proceeds received under erstwhile Viability Gap Funding ("VGF") scheme of MNRE on fulfilment of the underlying conditions as deferred revenue. Such deferred VGF revenue is recognized as sale of power in proportion to the actual sale of solar energy during the period to the total estimated sale of solar energy during the tenure of the applicable power purchase agreement or balance tenure of power purchase agreement, as applicable pursuant to the revenue recognition policy.

The Group also recognises revenue on Late Payment Surcharge and interest on late payment for power supply on reasonable certainty to expect ultimate collection or otherwise based on actual collection, whichever is earlier.

Revenue from customers

Revenue from customers, net consists of the following:

	The Group	
	As at March 31,	
	2025	2026
	US\$	US\$
	(in thousands)	
Revenue from Customers:		
Sale of Power ⁽¹⁾	242,394	230,523
Sale of carbon credit emission	284	645
Total	242,678	231,168

- (1) Sale of power includes revenue for the recovery of Safe-Guard Duties and Goods and Service Tax, which is linked to generation of Solar units, resulting from the change in law provision of our PPAs, during the years ended March 31, 2025 and 2026 amounting to US\$ 3,453 thousands and US\$ 3,046 thousands respectively.

Amount recognized into revenue	(4,091)	(5,119)
Foreign exchange fluctuation	(2,053)	(6,939)
Closing balance	76,018	63,688

Accounts receivable – from sale of power consist of accrued revenues due under the PPA, based on the sale of power transferred to the customer, generally requiring payment within 30 to 60 days of sale. As per terms of PPA, payment is unconditional once performance obligations have been satisfied and does not contain any future, unsatisfied performance obligation to be included in this disclosure.

(q) Cost of operations (exclusive of depreciation and amortization)

The Group's cost of operations consists of expenses pertaining to operations and maintenance of its solar power plants. These expenses include payroll and related costs for maintenance staff, plant maintenance, insurance, and lease costs.

Depreciation expense is not included in cost of operations but is included within "Depreciation and amortization expense", shown separately in the consolidated statements of operations.

For the years ended March 31, 2025 and 2026, cost of operations, included US\$ 1,265 thousands and US\$ 4,099 thousands, respectively, for the recovery of claims towards business interruption losses resulting from a fault in certain equipment.

(r) General and administrative expenses

General and administrative expenses include payroll and related costs for corporate, finance and other support staff, including bonus and share based compensation expense, professional fees and other corporate expenses.

(s) Share based compensation

The Group and the Company follows guidance under ASC Topic 718, *Compensation- Stock Compensation*, which requires compensation costs related to share-based transactions, including employee share options, to be recognized in the financial statements based on their fair value. The Group and the Company recognizes compensation expense for equity share options net of estimated forfeitures. Forfeitures are estimated at the time of grant and revised, if necessary, in subsequent periods if actual forfeitures differ from those estimates. Share-based compensation is included in general and administrative expenses and recognized in the consolidated and separate statements of operations based on awards ultimately expected to vest, except the cost of services which is initially capitalized by the Group as part of the cost of property, plant and equipment.

The Group recognizes compensation expense for Stock Appreciation Rights ("SARs") and Restricted Stock Units ("RSUs") based on the fair value of the amount payable to employees in respect of SARs, which are settled in cash, with a corresponding increase in liabilities, over the period that the employees unconditionally become entitled to the payment. The liability is remeasured at each reporting date and at settlement date based on the fair value of the SARs or amounts as per best estimated. Any changes in the fair value of the liability are recognized in consolidated statements of operations.

AZURE POWER GLOBAL LIMITED
Notes to Consolidated and Separate Financial Statements
(US\$ amounts in thousands except share and per share data)

2. Summary of material accounting policies (continued)

(s) Share based compensation (continued)

The Group and the Company elected to use the Black-Scholes-Merton valuation model to determine the fair value of share-based awards on the date of grant for employee share options with a fixed exercise price and fixed service-based vesting.

The Group elected to use the Black-Scholes-Merton valuation model to determine the fair value of SARs at each reporting date.

Employee Stock Option

The share-based compensation expense related to share-based compensation is recorded as a component of general and administrative expenses in the Group's consolidated statements of operations and totaled reversal of expense US\$ 196 thousands and reversal of expense US\$ Nil for the years ended March 31, 2025 and 2026, respectively.

Stock Appreciation Rights

The share-based compensation expense related to SARs is recorded as a component of general and administrative expenses in the Company's consolidated statements of operations and amounts to US\$ Nil for the years ended March 31, 2025 and 2026.

Refer to note 22 for details on the Share based compensation.

(t) Assets held-for-sale

Assets and asset disposal group are classified as held-for-sale if their carrying amount will be recovered principally through a sale transaction rather than through continuing use. This condition is regarded as met only when management commits to a plan to sell the asset; the asset is available for immediate sale in its present condition; an active program to locate a buyer and other actions required to complete the plan have been initiated; the sale of the asset is probable within one year; the asset is being actively marketed for sale at a reasonable price in relation to its current fair value; and it is unlikely that significant changes to the plan will be made or that the plan will be withdrawn. Assets and liabilities classified as held-for-sale are measured at lower of their carrying amount and fair value less costs to sell and depreciation (amortization) ceases once the asset is classified as held for sale. See also, Note 24.

(u) Contingencies

Liabilities for loss contingencies arising from claims, tax assessments, litigation, fines and penalties and other sources are recorded when it is probable that a liability has been incurred and the amount of the assessment and/or remediation can be reasonably estimated. Legal costs incurred with respect to these items are expensed as incurred.

(v) Fair value of financial instruments

ASC Topic 820, *Fair Value Measurements and Disclosures*, defines fair value as the price at which an asset could be exchanged or a liability transferred in an orderly transaction between knowledgeable, willing parties in the principal or most advantageous market for the asset or liability. Where available, fair value is based on observable market prices or derived from such prices. Where observable prices or inputs are not available, valuation models are applied. These valuation techniques involve some level of management estimation and judgment, the degree of which is dependent on the price transparency for the instruments or market and the instruments' complexity.

When considering market participant assumptions in fair value measurements, the following fair value hierarchy distinguishes between observable and unobservable inputs, which are categorized in one of the following levels

- *Level 1 inputs: Unadjusted quoted prices in active markets for identical assets or liabilities accessible to the reporting entity at the measurement date.*
- *Level 2 inputs: Other than quoted prices included in Level 1 inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the asset or liability.*
- *Level 3 inputs: Unobservable inputs for the asset or liability used to measure fair value to the extent that observable inputs are not available, thereby allowing for situations in which there is little, if any, market activity for the asset or liability at measurement date.*

(w) Derivative and Hedging

In the normal course of business, the Group and the Company uses derivative instruments for the purpose of mitigating the exposure from foreign currency fluctuation risks associated with forecasted transactions denominated in certain foreign currencies and to minimize earnings and cash flow volatility associated with changes in foreign currency exchange rates, and not for speculative trading purposes. These derivative contracts are purchased within the Group and the Company's policy and are with counterparties that are highly rated financial institutions.

Contracts designated as Cash Flow Hedge

Cash flow hedge accounting is followed for derivative instruments to mitigate the exchange rate risk on foreign currency denominated debt instruments. Changes in fair value of derivative contracts designated as cash flow hedges are recorded in other comprehensive income/(loss), net of tax, until the hedge transaction occurs. The Group evaluates hedge effectiveness of cash flow hedges at the time a contract is entered into as well as on an ongoing basis or as required. When the relationship between the hedged items and hedging instrument is highly effective at achieving offsetting changes in cash flows attributable to the hedged risk, the Group records in other comprehensive income the entire change in fair value of the designated hedging instrument that is included in the assessment of hedge effectiveness. The cost of the hedge is recorded as an expense over the period of the contract on a straight-line basis.

AZURE POWER GLOBAL LIMITED
Notes to Consolidated and Separate Financial Statements
(US\$ amounts in thousands except share and per share data)

2. Summary of material accounting policies (continued)

(w) Derivative and Hedging (continued)

Fair value hedges: hedging of foreign exchange exposure

Fair value hedge accounting is followed for foreign exchange risk with the objective to reduce the exposure to fluctuations in the fair value of firm commitments due to changes in foreign exchange rates.

Fair value adjustments related to non-financial instruments will be recognized in the hedged item upon recognition, and will eventually affect earnings as and when the hedged item is derecognized. Changes in the fair value of derivatives designated and qualifying as fair value hedges, together with any changes in the fair value of the hedged firm commitments attributable to the hedged risk, will be recorded in the consolidated balance sheet. The gain or loss on the hedging derivative in a hedge of a foreign-currency-denominated firm commitment and the offsetting loss or gain on the hedged firm commitment is recognized in earnings in the accounting period, post the recognition of the hedged item in the balance sheet.

Undesignated contracts

Changes in fair value of undesignated derivative contracts are reported directly in earnings along with the corresponding transaction gains and losses on the items being economically hedged. The Group and the Company enters into foreign exchange currency contracts to mitigate and manage the risk of changes in foreign exchange rates. These foreign exchange derivative contracts were entered into to hedge the fluctuations in foreign exchange rates for recognized balance sheet items such as the Group's U.S. dollar denominated borrowings. The Group and the Company has not designated the derivative contracts as hedges for accounting purposes. Realized gains (losses) and changes in the fair value of these foreign exchange derivative contracts are recorded in Loss / (gain) on foreign currency exchange, net in the consolidated statements of operations for the Group and the Company. These derivatives are not held for speculative or trading purposes.

(x) Segment information

Operating segments are defined as components of the Company and the Group about which separate financial information is available that is evaluated regularly by the chief operating decision maker, or decision-making group, in deciding how to allocate resources and in assessing performance. The Group and the Company's chief executive officer is the chief operating decision maker. Based on the financial information presented to and reviewed by the chief operating decision maker in deciding how to allocate the resources and in assessing the performance of the Group and the Company, the Group and the Company determined that it has a single operating and reporting segment: Sale of power. The Group and the Company's principal operations, revenue and decision-making functions are located in India.

(y) Non-controlling interest

The non-controlling interest recorded in the consolidated financial statements relates to following ownership interest not held by the Group:

- (i) 0.83% ownership interest in a subsidiary, a 10MW Gujarat power plant;
- (ii) 48.99% ownership interest in a subsidiary, a 50MW Uttar Pradesh power plant;
- (iii) 0.16% ownership interest in a subsidiary, a 100 MW Telangana power plant;
- (iv) 0.01% ownership interest in Azure Power India Private Limited*.

As of March 31, 2026, the Group recorded a non-controlling interest amounting to US\$ 4,792 thousands including US\$ 42 thousands of net gain for the year ended March 31, 2026. As of March 31, 2025, the Group recorded a non-controlling interest amounting to US\$ 4,750 thousands including US\$ 147 thousands of net gain for the year ended March 31, 2025.

*This remaining ownership by the founders was under arbitration and same was decided in our favor, we have filled a petition before the high court of Delhi seeking enforcement of the Award. Refer note 21.

(z) Inventory

Carbon emission rights (CERs) received on registered projects are recorded as inventory. Inventories are valued at the lower of cost and net realisable value. Cost includes cost of purchase and other costs incurred in bringing the inventories to their present location and condition. Cost is determined using weighted average method. Net realizable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and the estimated costs necessary to make the sale. The Group derecognizes the CERs when the certificate is sold, which occurs when units are transferred to the customer.

(aa) Recent accounting pronouncements

The Group has considered all Accounting Standards Updates ("ASUs") issued by the Financial Accounting Standards Board ("FASB") that are not yet effective as at March 31, 2026. Based on management's assessment of the Group's operations and transactions, none of the issued but not yet effective ASUs are expected to have a material impact on the Group's financial statements upon adoption.

Foreign currency term loans

3.575% Senior Notes

During the year ended March 31, 2022, Azure Power Energy Limited (one of the subsidiaries of APGL) issued 3.575% US\$ denominated Senior Notes ("3.575% Senior Notes" or "Green Bonds") and raised US\$ 408,500 thousands, net of issuance expense of US\$ 5,500 thousands. The issuance expenses have been recorded as finance cost, using the effective interest rate method and the unamortized balance of such amounts is netted with the carrying value of the Green Bonds. The Green Bonds are listed on the Singapore Exchange Securities Trading Limited. In accordance with the terms of the issue, the proceeds were used for repayment of 5.5% Senior Notes. The Green Bonds are secured by a pledge of Azure Power Energy Limited's shares held by Azure Power Global Limited.

During the year ended March 31, 2026, 3.575% Senior Notes have been fully repaid by availing debt refinancing from REC limited as described below under "Project level secured term loans- Indian rupee loans".

The loan is secured by a pledge of 51% of the equity share capital of the SPV held by Azure Power India Private Limited, a corporate guarantee provided by Azure Power India Private Limited, cross-collateralisation with 13 other SPVs, and a charge over the movable and immovable assets of the SPV.

During the year ended March 31, 2026, the Group borrowed US\$ 8,061 thousands from REC Limited, towards refinancing of 20 MW solar power project with Solar Energy Corporation of India Limited. The loan is repayable in 134 monthly instalments, commencing from February 2026 and ending in March 2037. The net carrying value of the loan as of March 31, 2026 is US\$ 7,797 thousands. The loan is secured by a pledge of 51% of the equity share capital of the SPV held by Azure Power India Private Limited, a corporate guarantee provided by Azure Power India Private Limited, cross-collateralisation with 13 other SPVs, and a charge over the movable and immovable assets of the SPV.

During the year ended March 31, 2026, the Group borrowed US\$ 48,450 thousands from REC Limited, towards refinancing of 100 MW solar power project with NTPC Limited. The loan is repayable in 158 monthly instalments, commencing from February 2026 and ending in March 2039. The net carrying value of the loan as of March 31, 2026 is US\$ 47,151 thousands. The loan is secured by a pledge of 51% of the equity share capital of the SPV held by Azure Power India Private Limited, a corporate guarantee provided by Azure Power India Private Limited, cross-collateralisation with 13 other SPVs, and a charge over the movable and immovable assets of the SPV.

Other loans

During the current year ended March 31, 2026 the Group has borrowed US\$ 31,694 thousands from Société Générale S.A. and incurred an issuance expense of US\$ 655 thousands to refinance the existing unsecured loan taken Hong Kong and Shanghai Banking Corporation (HSBC). The principal amount is repayable in 3 annual instalments, commencing from September 2026 and ending in September 2028. The borrowing is secured by an exclusive charge ensuring a minimum security cover of 1.5 times, including charge over distribution accounts of 2 projects, exclusive charge over the Collection Account including cash surplus from subsidiaries and projects, charge over the Debt Service Reserve Amount, and a non-disposal undertaking over NDU securities. The net carrying value of the loan as of March 31, 2026 is US\$ 31,314 thousands.

As of March 31, 2026, the Group has unused commitments for long-term financing arrangements amounting to US\$ 29,719 thousands for solar power projects and corporate facility.

Covenants and debt financing costs

These aforementioned borrowings are subject to certain financial and non-financial covenants. Financial covenants include cash flow to debt service, indebtedness to net worth ratio, debt equity ratio and maintenance of debt service balances.

As of March 31, 2026, the Group was in compliance with the financial covenants.

Generally, under the terms of the loan agreements entered into by the Company's project subsidiaries, the project subsidiaries are restricted from paying dividends, if they default in payment of their principal, interest and other amounts due to the lenders under their respective loan agreements. Certain of APGL's project subsidiaries also may not pay dividends out of restricted cash.

The carrying value of debt financing costs as on March 31, 2025 and March 31, 2026 was US\$ 10,119 thousands and US\$ 8,505 thousands, respectively, for the above loans, which is amortized over the term of the contract using the effective interest rate method.

AZURE POWER GLOBAL LIMITED
Notes to Consolidated and Separate Financial Statements
(US\$ amounts in thousands except share and per share data)

13. Long term debt (continued)

Restricted cash

The Group is required to maintain principal and interest, both as defined in the respective agreements, as a reserve with banks specified by the respective lenders. Such amounts, totaling US\$ 46,307 thousands and US\$ 47,911 thousands as of March 31, 2025 and March 31, 2026, respectively, are classified as restricted cash on the consolidated balance sheet.

As of March 31, 2026, the aggregate maturities of long-term debt are as follows:

As of March 31,	Annual maturities
	US\$
2027	92,759
2028	152,671
2029	98,950
2030	176,062
2031	72,009
Thereafter	658,557
Total: aggregate maturities of long-term debt	1,251,008
Less: carrying value of unamortized debt financing costs	(8,505)
Net maturities of long-term debt	1,242,503
Less: current portion of long-term debt	(91,518)
Long-term debt	1,150,985

14. Income Taxes

The individual entities within the Group file individual tax returns as per the regulations existing in their respective jurisdictions.

The fiscal year under the Indian Income Tax Act ends on March 31. A portion of the Group's Indian operations qualify for deduction from taxable income because its profits are attributable to undertakings engaged in development of solar power projects under section 80-IA of the Indian Income Tax Act, 1961. This holiday is available for a period of ten consecutive years out of fifteen years beginning from the year in which the respective Group's entity generates power ("Tax Holiday Period"). However, the exemption is only available to the projects completed on or before March 31, 2017. For majority of our subsidiaries eligible for aforesaid deduction, we have claimed the same in the last ten years out of fifteen years beginning with the year in which the respective Group's entity generates power and when it has taxable income. Accordingly, its current operations are taxable at the applicable tax rates, based on eligibility criteria.

The Group had adopted the provisions of ASC Topic 740 as they relate to uncertain income tax positions. Tax exposures can involve complex issues and may require extended periods to resolve. The Group and the Company does not have any uncertain tax positions requiring recognition. The Group and the Company reassesses its tax positions in light of changing facts and circumstances, such as the closing of a tax audit, refinement of an estimate, or changes in tax codes. To the extent that the final tax outcome of these matters differs from the amounts recorded, such differences will impact the provision for income taxes in the period in which such determination is made.

The provision/ (benefit) for the income tax for the Group consists of the following:

	Year ended March 31,	
	2025	2026
	US\$	US\$
Current tax expense	5,843	2,763
Income tax adjustments pertaining to earlier years	(1,344)	111
Withholding Tax on interest on Inter-corporate debt	3,138	1,447
Deferred income tax (benefit)	(13,058)	47,022
Total	(5,421)	51,343

Loss before income taxes for the Group is as follows:

	Year ended March 31,	
	2025	2026
	US\$	US\$
Domestic operations	(32,740)	(6,194)
Foreign operations	(9,566)	28,188
Total	(42,306)	21,994

Net deferred income taxes for the Group in the consolidated statements of assets and liabilities as follows:

	As at March 31,	
	2025	2026
	US\$	US\$
Deferred tax assets	52,383	26,412
Less: Valuation allowance	(24,899)	(15,456)
Net deferred tax assets	27,484	10,956
Deferred tax liabilities	28,097	50,665

AZURE POWER GLOBAL LIMITED
Notes to Consolidated and Separate Financial Statements
(US\$ amounts in thousands except share and per share data)

14. Income Taxes (continued)

At March 31, 2026, the Group and the Company performed an analysis of the deferred tax asset valuation allowance. Based on the analysis, the Group concluded that a valuation allowance offsetting the deferred tax assets is required as of March 31, 2026, on the basis that it is more likely than not that APGL itself will not be able to utilize the entirety of its net operating losses as it has no business operations of its own.

Change in the valuation allowance for deferred tax assets for the Group as of March 31, 2025 and March 31, 2026 is as follows:

	Year ended March 31,	
	2025	2026
	(US\$)	(US\$)
Opening valuation allowance	21,757	24,899
Movement during the year	3,704	(7,565)
Foreign exchange fluctuation	(562)	(1,878)
Closing valuation allowance	24,899	15,456

The significant components of the net deferred income tax assets and liabilities for the Group exclusive of amounts that would not have any tax consequences because they will reverse within the Tax Holiday Period, are as follows:

	As at March 31,	
	2025	2026
	(US\$)	(US\$)
Deferred tax assets:		
Net operating loss ⁽¹⁾	226,318	187,070
Tax on Inter — Company margin	70	274
Deferred revenue	7,280	6,740
Asset retirement obligation	4,101	3,993
Minimum alternate tax credit	9,476	7,279
Allowance under Section 94B of the Indian Income Tax Act	58,225	39,290
Other deductible temporary difference	1,518	253
Capital loss on investment in rooftop and other assets	9,850	8,906
Valuation allowance	(24,899)	(15,456)
Deferred tax liabilities:		
Depreciation and amortization	(287,259)	(277,995)
Other comprehensive income	(5,293)	(63)
Net deferred tax liabilities	(613)	(39,709)

⁽¹⁾ Includes deferred tax on unabsorbed depreciation that can be carried forward indefinitely for set off as per income tax laws.

APGL, the holding company and two of its subsidiaries incorporated in Mauritius have applicable income tax rate of 15%. However the group's significant operations are based in India and are taxable as per Indian Income Tax Act, 1961. For effective tax reconciliation purposes, the applicable tax rate in India has been considered. The effective income tax rate differs from the amount computed by applying the statutory income tax rate to loss before income taxes and is as follows:

	For the Year ended March 31,			
	2025		2026	
	Tax US\$	%	Tax US\$	%
Statutory income tax (benefit)/expense	(10,586)	25.17%	5,537	25.17%
Temporary differences reversing in the Tax Holiday Period	18,766	(44.90)%	29,795	135.48%
Permanent timing differences	17,738	(42.44)%	6,115	27.81%
Temporary differences on Section 94B allowance	(50,361)	120.50%	15,605	70.96%
Minimum alternate tax credit	10,458	(25.02)%	1,178	5.36%
Valuation allowance created / (reversed) during the year	3,704	(8.86)%	(7,565)	(34.40)%
Tax adjustment relating to earlier years	(1,332)	3.19%	113	0.51%
Withholding tax on interest on Inter-Company debt related to green bonds	3,096	(7.41)%	1,449	6.59%
Other difference	3,096	(7.41)%	(883)	(3.81)%
Total	(5,421)	12.82%	51,344	233.67%

During the year end March 31, 2020, The Taxation Laws (Amendment) Act, 2019 brought key changes to corporate tax rates in the Income Tax Act, 1961, which reduced the tax rate for certain subsidiaries within the group to 25.17%. Azure Power India Private Limited and some of its subsidiaries which are claiming tax benefits under section 80-IA of the Income Tax Act had decided not to opt for this lower tax benefit and have continued under the old regime for the years ended March 31, 2025 and 2026. The statutory income tax rate as per the Income Tax Act, 1961 ranges between 25.17% to 34.94%, depending on the tax regime chosen by the subsidiary.

As of March 31, 2025, and 2026, deferred income taxes were not provided for the Group's share of undistributed net earnings of foreign operations due to management's intent to reinvest such amounts indefinitely.

Other.....	5,871	14,907	-	21
Total.....	126,332	105,776	5,325	10,327

⁽¹⁾ Bank charges and other includes amortization of debt financing costs of US\$ 7,865 thousands and US\$ 5,497 thousands for the Group, for the years ended March 31 2025 and 2026, respectively. The amortization of debt financing costs also includes debt financing costs written off related to the debt refinancing amounting to US\$ 1,419 and US\$ 1,268 thousands for the Group, for the years ended March 31 2025 and 2026, respectively.

16. Loss on foreign currency exchange

(Gain)/ loss on foreign currency exchange consists of the following:

	As of March 31,			
	The Group		The Company	
	2025	2026	2025	2026
	(US\$)	(US\$)	(US\$)	(US\$)
Unrealized (gain)/ loss on foreign currency loans	(135)	97	-	-
Other loss on foreign currency exchange.....	230	192	-	-
Total.....	95	289	-	-

17. Equity shares

Equity shares

Equity shares have a par value of US\$0.000625 per share at APGL. There is no limit on the number of equity shares authorized. As of March 31, 2025, and 2026, there were 64,166,360 and 64,166,360 equity shares issued and outstanding, respectively.

	As of March 31,			
	2025	2025	2026	2026
	Number of	US\$	Number of	US\$
	shares		shares	
Issued:				
Outstanding and fully paid:				
Equity shares of US\$ 0.000625 par value each				
Beginning balance	64,166,360	40	64,166,360	40
Exercise of ESOPs	-	-	-	-
Ending balance	64,166,360	40	64,166,360	40

AZURE POWER GLOBAL LIMITED
Notes to Consolidated and Separate Financial Statements
(US\$ amounts in thousands except share and per share data)

18. Loss per share

The Group calculates earnings per share in accordance with FASB ASC Topic 260 Earnings Per Share and FASB ASC Topic 260-10-45 Determining Whether Instruments Granted in Share-Based Payment Transactions Are Participating Securities. Basic and diluted earnings losses per equity share give effect to the change in the number of equity shares of the Company. The calculation of basic earnings per equity share is determined by dividing net loss attributable to APGL equity shareholders by the weighted average number of equity shares outstanding during the respective years. The potentially dilutive shares, consisting of employee share options have been included in the computation of diluted net earnings per share and the weighted average shares outstanding, except where the result would be anti-dilutive.

Loss per share is presented below:

	As of March 31,			
	The Group		The Company	
	2025	2026	2025	2026
	(US\$)	(US\$)	(US\$)	(US\$)
Net loss attributable to APGL equity shareholders	(37,032)	(29,391)	(46,589)	(11,470)
Add: Accretion on redeemable non-controlling interest	-	-	-	-
Total (A).....	(37,032)	(29,391)	(46,589)	(11,470)
Shares outstanding for allocation of undistributed income:				
Equity shares	64,166,360	64,166,360	64,166,360	64,166,360
Weighted average shares outstanding				
Equity shares (B)	64,166,360	64,166,360	64,166,360	64,166,360
Equity shares – Diluted (C).....	64,166,360	64,166,360	64,166,360	64,166,360
Net loss per share — basic and diluted				
Equity loss per share – Basic (D=A/B)	(0.58)	(0.46)	(0.73)	(0.18)
Equity loss per share – Diluted (E=A/C)	(0.58)	(0.46)	(0.73)	(0.18)

In the years ended March 31, 2025 and 2026, the number of share options outstanding but not included in the computation of diluted earnings per equity share because their effect was antidilutive was 142,048 and 114,920, respectively.

19. Leases

The Group has several non-cancellable operating leases, primarily for construction of solar power plants and for office facilities, warehouses, and office space that have a lease term ranging between 2 to 35 years (after considering further extendable period on mutual agreement by both lessor and lessee). The Group has considered the renewal options in determining the lease term to the extent it was reasonably certain to exercise those renewal options and accordingly, associated potential option payments are included as part of lease payments.

The components of lease cost of Group for the years ended March 31, 2025 and March 31, 2026 were as follows:

	For the year ended March 31,	
	2025	2026
	US\$	US\$
Operating lease cost	5,735	6,602
Short-term lease cost	95	193
Total lease cost	5,830	6,795

Amounts reported in the consolidated balance sheet as of March 31, 2025 and March 31, 2026 were as follows:

	As at March 31,	
	2025	2026
	US\$	US\$
Non-current assets		
Right-of-use assets	47,693	54,783
Non-current liabilities		
Lease liabilities (A)	40,690	46,202
Current liabilities		
Lease liabilities (B)	3,790	4,247
Total operating lease liabilities (A+B)	44,480	50,449

AZURE POWER GLOBAL LIMITED
Notes to Consolidated and Separate Financial Statements
(US\$ amounts in thousands except share and per share data)

19. Leases (continued)

Other information related to leases as of March 31, 2025 and March 31, 2026 was as follows:

	As at March 31,	
	2025	2026
	Amount (US\$)	Amount (US\$)
Supplemental cash flow information:		
Cash paid for amounts included in the measurement of lease liabilities	3,972	5,758
Weighted average remaining lease term	27 years	26 years
Incremental borrowing rate	10%	10%

Maturities of lease liabilities under non-cancellable leases as of March 31, 2026 are as follows:

Fiscal years	Amount (US\$)
Fiscal 2027	4,437
Fiscal 2028	4,627
Fiscal 2029	4,532
Fiscal 2030	4,448
Fiscal 2031	4,448
Thereafter	143,662
Total undiscounted lease payments	166,154
Less: Imputed interest	115,705
Total lease liabilities	50,449

20. Commitments, guarantees and contingencies

Capital commitments

The commitments for the purchase of property, plant and equipment were US\$ 16,347 thousands and US\$ 73,531 thousands as of March 31, 2025 and 2026 respectively.

Guarantees

The terms of our PPAs provide for the annual delivery of a minimum amount of electricity at fixed prices. Under the terms of the PPAs, we have issued irrevocable performance bank guarantees. As of March 31, 2025 and 2026, these performance bank guarantees total to US\$ 41,867 thousands and US\$ 47,298 thousands, respectively.

As of March 31, 2025 and 2026, the Group issues irrevocable performance bank guarantees aggregating to US\$ 28,873 thousands and US\$ 34,578 thousands respectively, in relation to under construction projects. Further, as of March 31, 2025 and 2026, bank guarantee in relation to commissioned projects as per respective PPAs and other project requirements were US\$ 11,965 thousands and US\$ 11,896 thousands, respectively.

As of March 31, 2025 and as of March 31, 2026, bank guarantees issued to meet Debt-Service Reserve Account (DSRA) requirements for outstanding loans amounts were US\$ 911 thousands and US\$ 824 thousands, respectively.

The funds released from maturity/settlement of existing bank guarantees can be used for future operational activities.

Contingencies

As of March 31, 2026, we have contingent liability amounting to US\$ 4,992 thousands may arise on account of dispute raised by one of the vendors.

AZURE POWER GLOBAL LIMITED
Notes to Consolidated and Separate Financial Statements
(US\$ amounts in thousands except share and per share data)

21. Related Party Disclosures

The Company and its subsidiary, Azure Power India Private Limited (“APIPL”), were parties to an arbitration proceeding initiated by Mr. Inderpreet Singh Wadhwa (“IW”), former Chairman, CEO, and Managing Director of the Company, and Mr. H.S. Wadhwa (“HSW”), former COO of APIPL. The dispute concerned the purchase price of their respective shareholdings in APIPL. The arbitration was conducted under rules of the Singapore International Arbitration Centre (SIAC). The arbitration concluded with an award in our favor. Subsequently, IW and HSW filed an appeal challenging the SIAC award which was also dismissed by Singapore High Court vide order dated June 29, 2022, thereby, upholding the Award in our favor. We have filed a petition before the High Court of Delhi seeking enforcement of the award. In the course of these proceedings, IW and HSW have been restrained from alienating or creating any third-party rights over their shares in APIPL, which form the subject matter of the award. This matter is currently pending with the court.

During the current year, Azure Power Global Limited has given a short-term debt of US\$ 780 thousands to its subsidiary Azure Power Solar Energy Private Limited carrying interest rate of 5.67% and receivable within 12 months from the date of disbursement.

22. Share based compensation

The Company has a 2015 Stock Option Plan and 2016 Equity Incentive Plan and as amended on March 31, 2020 (collectively “ESOP Plans”) duly approved by the Board of Directors and had 2,023,744 stock options in the employee stock option as of March 31, 2021. Under the ESOP Plans, the Compensation Committee on behalf of Board of Directors (the “Directors”) may from time to time make grants to one or more employees, determined by it to be eligible for participation under the plans.

The Compensation Committee determines which employees are eligible to receive the equity awards, the number of equity awards to be granted, the exercise price, the vesting period and the exercise period. The vesting period will be decided by the Compensation Committee as and when any grant takes place. All options granted under these plans shall vest over a period of 4 years from the date of grant with 25% vesting at the end of year one, 25% vesting at the end of year two, 25% vesting at the end of year three and 25% vesting at the end of year four unless specified otherwise. Shares forfeited by the Company are transferred back to the employee stock pool and shall be available for new grants.

Options are deemed to have been issued under these plans only to the extent actually issued and delivered pursuant to a grant. To the extent that a grant lapses or the rights of its grantee terminate, any equity shares subject to such grant are again available for new grants.

The option grant price may be determined by the Compensation Committee and is specified in the option grant. The grant is in writing and specifies the number of options granted the price payable for exercising the options, the date/s on which some or all of the options shall be eligible for vesting, fulfillment of the performance and other conditions, if any, subject to when vesting shall take place and other terms and conditions thereto. The option grant can be exercised only by the employees/ Key Managerial personnel (KMP) of the Group.

Employee Stock Option Plan

Options granted under the plan are exercisable into equity shares of the Company, have a contractual life equal to the shorter of ten years, or July 20, 2025, or July 20, 2027, as the case may be, and vest equitably over four years, unless specified otherwise in the applicable award agreement. The Group recognizes compensation cost, reduced by the estimated forfeiture rate, over the vesting period of the option. A summary of share option activity during the years ended March 31, 2025 and March 31, 2026 is set out below:

	Number of shares*	Weighted average exercise price in US\$
Options outstanding as of March 31, 2024	304,202	16
Forfeited/Expired	(162,154)	15
Options outstanding as of March 31, 2025	142,048	12
Vested and exercisable as of March 31, 2025	142,048	12
	Number of shares*	Weighted average exercise price in US\$
Options outstanding as of March 31, 2025	142,048	12
Forfeited/Expired	(27,128)	12
Options outstanding as of March 31, 2026	114,920	12
Vested and exercisable as of March 31, 2026	114,920	12

Total options available for grant as of March 31, 2026 were 913,182 ESOPs.

The Black-Scholes-Merton option pricing model includes assumptions regarding dividend yields, expected volatility, expected option term, and risk-free interest rates. The Company estimates expected volatility based on the historical volatility of the Company (considering sufficient history of its own data is available now for identifying the volatility). The risk-free interest rate is based on the yield of relevant time period based on US government bonds in effect at the time of grant for a period commensurate with the estimated expected life. The expected term of options granted is derived using the “simplified” method as allowed under the provisions of ASC Topic 718 to provide a reasonable basis upon which to estimate expected term.

No new grants have been made by the Company during the years ended March 31, 2025 and March 31, 2026.

As of March 31, 2025 and March 31, 2026, the aggregate intrinsic value of all outstanding options was Nil and Nil, respectively.

The share-based compensation expense related to share options (including RS) is recorded as a component of general and administrative expenses in the Group’s consolidated statements of operations and totaled, reversal of US\$ 196 thousands and reversal of US\$ Nil thousands for the years ended March 31, 2025 and 2026, respectively. Unrecognized compensation cost for unvested options as of March 31, 2026 is Nil.

During November 2018, the Group repriced the exercise price for 692,507 options, which were previously awarded to certain officers, employees and directors under the ESOP plans from US\$13.25 to US\$11.90 per share. All terms and conditions of the eligible options, including the vesting schedule, service condition and other terms remain the same. The impact of the repricing of the options has been considered in these financial statements as at, and for the year ended, March 31, 2026.

AZURE POWER GLOBAL LIMITED
Notes to Consolidated and Separate Financial Statements
(US\$ amounts in thousands except share and per share data)

22. Share based compensation (continued)

Stock Appreciation Rights (SARs)

The Company granted incentive compensation in the form of Stock Appreciation Rights (“SARs”), as defined in the Group’s 2016 Equity Incentive Plan, as amended on March 31, 2020, to its erstwhile CEO and erstwhile COO. The SARs have been granted in 4 tranches with maturity dates up to the year ended March 31, 2028.

A summary of SARs activity during the years ending March 31, 2025 and 2026 is set out below:

	Number of SARs	Weighted average exercise price in US\$
SAR outstanding as of March 31, 2024	680,000	11
Granted	-	-
SAR forfeited/reversed during the year	-	-
SAR outstanding as of March 31, 2025	680,000	11
Vested as of March 31, 2025	680,000	11
Exercisable as of March 31, 2025	680,000	11
	Number of SARs	Weighted average exercise price in US\$
SAR outstanding as of March 31, 2025	680,000	11
Granted	-	-
SAR forfeited/reversed during the year	-	-
SAR outstanding as of March 31, 2026	680,000	11

Fair value of SARs as of March 31, 2026 has been taken basis the expected settlement with the erstwhile CEO and COO.

The share-based compensation expense related to SARs is recorded as a component of general and administrative expenses in the Company’s consolidated statements of operations totaled reversal of Nil and reversal of Nil for the years ended March 31, 2025 and March 31, 2026 respectively. The carrying value of the liability recorded for SARs as at March 31, 2025 and 2026 was US\$ 2,314 thousands and US\$ 2,092 thousands, respectively. Unrecognized compensation cost for unvested SARs as of March 31, 2026 is Nil.

The fair value per SAR at the date of grant during the year ended March 31, 2026 is as follows:

Date of grant	No. of SARs granted	Deemed fair value of SAR (US\$)	Vesting period	Valuation used
July 18, 2019	200,000	9	February 2020	Market price
July 18, 2019	1,600,000	9	March 31, 2020 to July 31, 2027	Market price
March 30, 2020	170,000	15	March 31, 2021 to March 31, 2024	Market price
March 31, 2021	80,000	28	March 31, 2022 to March 31, 2025	Market price

23. Post retirement plans

The Group has a defined benefit gratuity plan. Every employee who completed five years or more of service is entitled to a gratuity on departure at 15 days salary (last drawn salary) for each completed year of service. The Scheme is unfunded and accrued cost is recognized through a provision in the accounts of the Group.

The following table sets forth the changes in projected benefit obligations of the Group:

	As at March 31,	
	2025	2026
	US\$	US\$
Benefit obligation at beginning of year	696	686
Service cost	130	95
Past service cost	-	338
Interest cost	47	42
Net actuarial loss	12	11
Benefits paid	(199)	(207)
Benefit obligation at end of year	686	965
Amounts recognized in statements of assets and liabilities at March 31 consist of:		
Other non-current liabilities	487	705
Other current liabilities	199	260
Net amount recognized	686	965

23. Post retirement plans (continued)

Components of Net Periodic Benefit Cost

Net periodic benefit cost for our postretirement benefit plans consisted of the following and is recorded as a component of general and administrative expenses in the Group's consolidated statement of operations:

	As at March 31,	
	2025	2026
	US\$	US\$
Service cost	130	95
Past service cost	-	338
Interest cost	47	42
Amortization of:		
Net actuarial loss	12	11
Net periodic benefit cost	189	486

The principal assumptions used in determining gratuity for the Group's plans are shown below:

	Year ended March 31,	
	2025	2026
Discount rate	6.95	7.13
Salary escalation rate	10.00	10.00
Employee turnover rate	28.00 %	27.00 %
Retirement age	58 years	58 years

The following estimated payments to the defined benefit plan in future years:

	Year ended March 31,	
	2025	2026
Within the next		
- 1 year	199	264
- 1 and 2 years	129	169
- 2 and 3 years	105	158
- 3 and 4 years	93	137
- 4 and 5 years	82	106
- 5 and 10 years	199	306

24. Impairment of assets and Assets held for sale

In April 2021, the APIPL had entered into an agreement with Radiance to sell certain subsidiaries (the "Rooftop Subsidiaries") with an operating capacity of 153 MW (the "Rooftop Portfolio") for US\$ 73.1 million, subject to certain purchase price adjustments (the "Rooftop Sale Agreement"). Pursuant to the Rooftop Sale Agreement, Radiance will acquire 100% of the equity ownership of the Rooftop Subsidiaries owned by the Group.

There was a restriction on transfer of 33.2 MW operating capacity that was part of the Restricted Group as defined in the Green Bond Indenture. The Group had transferred 48.6% equity ownership of these entities in financial year 2021-22 and remaining 51.4% ownership was to be transferred post refinancing of the Green Bonds which were due in December 2024. There was also a restriction on transfer of equity ownership relating to the 16 MW project with Delhi Jal Board (DJB), wherein 49% of the equity ownership was transferred to Radiance in financial year 2021-22 and the balance 51% was to be transferred on or after September 30, 2024.

Pursuant to refinancing of the Green Bonds, the Group transferred ownership of 33.2 MW operating capacity forming part of Restricted Group. Out of 33.2 MW, the Group had transferred 51.4% remaining equity ownership to Radiance for 21.8 MW during the year ending March 31, 2025. In May 2025, the remaining 51.4% equity ownership for the balance 11.4 MW was transferred to Radiance, completing the transfer of the entire 33.2 MW Restricted Group capacity. For the 16 MW project with Delhi Jal Board (DJB), in April 2025, the Group transferred the balance 51% remaining equity ownership to Radiance, completing the transfer of the entire 16 MW DJB capacity.

During the year ended March 31, 2025, upon removal of transfer restrictions and transfer of the remaining equity ownership in respect of the 33.2 MW operating capacity that were part of the Restricted Groups, and 16 MW project with Delhi Jal Board, there was a loss of control in respect to these entities. Accordingly, the carrying amount of the net assets and the non-controlling interest was derecognized and correspondingly fair value of the proceeds were recognized, with the resulting difference led to reversal of impairment amounting to US\$ 24 thousands and a gain of amounting to US\$ 4,445 which was recorded under general and administrative expenses respectively in the consolidated statement of operations.

Accordingly, with the transfer of both the Restricted Group (33.2 MW) and DJB (16 MW) portfolios completed during the year ended March 31, 2026, no investments under the Rooftop Sale Agreement remain classified as current investment as at March 31, 2026.

The Company transferred 100% shareholding in relation to 17.3 MW operating capacity in earlier years. The Group and Radiance have also mutually terminated the transfer in shareholding of the remaining un-transferred 86.5 MW portfolio to Radiance in earlier years.

The fair value of consideration related to the rooftop sale in earlier years included expected recovery of VGF for US\$ 6.1 million. The Group has undertaken to refund to the purchaser an amount equivalent to 85% of any shortfall in recovery of VGF. Based on the current circumstances, management assessed that they have complied with the conditions associated with the grant of VGF and hence have determined that the recovery of the VGF is likely.

Notes to Consolidated and Separate Financial Statements
(US\$ amounts in thousands except share and per share data)

24. Impairment of assets and Assets held for sale (continued)

The Group periodically assesses whether events or changes in circumstances indicate impairment of property, plant and equipment (PPE) or require revision of their remaining useful lives. The assessment involves significant management judgement and estimates, including future operating cash flows, useful lives, market conditions, fair values and other relevant assumptions, supported where appropriate by third-party expert reports. Where impairment indicators exist, the Group evaluates the recoverability of the carrying amount using applicable valuation techniques, including discounted future cash flows and other relevant methods. Any changes or deviations in the underlying assumptions, estimates or expert assessments could have a significant impact on the carrying value of PPE and the impairment loss recognized.

During the years ended March 31, 2025 and March 31, 2026, Group recognized an impairment loss of US\$ 3,890 thousands and US\$ 2,945 thousands, respectively, for written down value of rooftop assets.

The Group has also recognized impairment loss of US\$ 2,582 thousands in year ended March 31, 2026 for written down value of a ground mount project.

25. Fair Value Measurements

ASC Topic 820 *Fair Value Measurements and Disclosures* defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly, hypothetical transaction between market participants at the measurement date. ASC Topic 820 establishes a three-tier value hierarchy of fair value measurement based upon the whether the inputs to that measurement are observable or unobservable. Observable inputs reflect data obtained from independent sources while unobservable inputs reflect the Group's market assumptions. ASC Topic 820 prioritizes the inputs used in the valuation methodologies in measuring fair value as follows:

- Level 1 — Observable inputs that reflect quoted prices (unadjusted) for identical assets or liabilities in active markets.
- Level 2 — includes other inputs that are directly or indirectly observable in the marketplace. Observable inputs, other than Level 1 quoted prices for similar instruments in active markets; quoted prices for similar or identical instruments in markets that are not active; and valuations using models in which all significant inputs are observable in active markets.
- Level 3 — Unobservable inputs which are supported by little or no market activity.

The fair value hierarchy also requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value.

In accordance with ASC Topic 820, assets and liabilities are to be measured based on the following valuation techniques:

- Market approach — Prices and other relevant information generated by market transactions involving identical or comparable assets or liabilities.
- Income approach — converting the future amounts based on the market expectations to its present value using the discounting methodology.
- Cost approach — Replacement cost method.

The valuation techniques used by the Group to measure and report the fair value of certain financial assets and liabilities on a recurring basis are as follows;

Foreign exchange derivative contracts

The Group enters into foreign exchange derivative contracts to hedge fluctuations in foreign exchange rates for recognized balance sheet items such as foreign exchange term loans. The Group mitigates the credit risk of these foreign exchange derivative contracts by transacting with highly rated counterparties which are major banks. The Group uses valuation models to determine the fair value of the foreign exchange derivative contracts. The inputs considered include the theoretical value of a call option, the underlying spot exchange rate as of the balance sheet date, the contracted price of the respective option contract, the term of the option contract, the implied volatility of the underlying foreign exchange rates and the risk-free interest rate as of the balance sheet date. The techniques and models incorporate various inputs including the credit worthiness of counterparties, foreign exchange spot and forward rates, interest rate yield curves, forward rate yield curves of the underlying derivative contracts. The Group classifies the fair value of these foreign exchange derivative contracts in Level 2 because the inputs used in the valuation model are observable in active markets over the term of the respective derivative contracts.

Fair value measurement for the Group as on March 31, 2025

	Fair Value measurement at reporting date using			
	As of March 31, 2025 (US\$)	Quoted Prices in Active Markets for Identical Assets (Level 1) (US\$)	Significant Other Observable Inputs (Level 2) (US\$)	Significant Unobservable Inputs (Level 3) (US\$)

(US\$ amounts in thousands except share and per share data)

25. Fair Value Measurements (continued)

	Fair Value measurement at reporting date using			
	Quoted Prices in Active Markets for Identical Assets (Level 1) (US\$)	Significant Other Observable Inputs (Level 2) (US\$)	Significant Unobservable Inputs (Level 3) (US\$)	
Current liabilities				
Fair valuation of swaps and forward	257	-	257	-
Fair valuation of swaps and options	18,659	-	18,659	-
Total Liabilities	18,916	-	18,916	-

Fair value measurement for the Group as on March 31, 2026

	Fair Value measurement at reporting date using			
	Quoted Prices in Active Markets for Identical Assets (Level 1) (US\$)	Significant Other Observable Inputs (Level 2) (US\$)	Significant Unobservable Inputs (Level 3) (US\$)	
Assets				
Non-Current assets				
Fair valuation of swaps and options	2,768	-	2,768	-
Total assets	2,768	-	2,768	-

	Fair Value measurement at reporting date using			
	Quoted Prices in Active Markets for Identical Assets (Level 1) (US\$)	Significant Other Observable Inputs (Level 2) (US\$)	Significant Unobservable Inputs (Level 3) (US\$)	
Current liabilities				
Fair valuation of swaps and options	304	-	304	-
Total Liabilities	304	-	304	-

The carrying amount of cash and cash equivalents, including restricted cash, accounts receivable, accounts payables, and other current financial assets and liabilities approximate their fair value largely due to the short-term maturities of these instruments and are classified as level 2. There have been no transfers between categories during the year ended March 31, 2026.

The carrying value and fair value of the Group's fixed rate project financing term loans is as follows:

	As of March 31, 2025	
	Carrying Value (US\$)	Fair Value (US\$) *
Foreign currency loans	291,909	277,993
	As of March 31, 2026	
	Carrying Value (US\$)	Fair Value (US\$) *
Foreign currency loans	47,964	48,936

The Group uses the yield method to estimate the fair value of fixed rate loans using interest rate change as an input. The carrying amount of the Companies variable rate project financing terms loans approximate, there fair values due to variable interest rates.

* Fair value measurement at reporting date using significant unobservable inputs (Level 3).

26. Derivative instruments and hedging activities

Option Contracts Undesignated as hedge

(Gains)/Losses on foreign exchange derivative contracts for the year ended March 31, 2025 and 2026 aggregated Nil for the Group.

Contracts designated as Cash flow hedge

The Group hedged the foreign currency exposure risk related to certain intergroup loans denominated in foreign currency through call spread option with full swap for coupon payments. The Group also availed trade credit facilities denominated in foreign currencies which were fully hedged through interest rate swaps. The foreign currency forward contracts and options were not entered for trading or speculative purposes.

The Group documented each hedging relationship and assessed its initial effectiveness on inception date and the subsequent effectiveness was tested as determined at the time of inception of the contract. The gain or loss on the hedge contracts was recorded in accumulated other comprehensive income to the extent the hedge contracts were effective. The gain or loss on the hedge contracts shall be reclassified to interest expense when the coupon payments and principal repayments are made on the related investments. The hedge contracts were effective as of March 31, 2026.

The following table presents outstanding notional amount and balance sheet location information related to foreign exchange derivative contracts as of March 31, 2025 and 2026:

March 31, 2025					
	Notional Amount	Non-current Liabilities (Fair Value)	Current Liabilities (Fair Value)	Prepaid expenses and other current assets (Fair Value)	Other non-current assets (Fair Value)
	US\$	US\$	US\$	US\$	US\$
Fair valuation of swaps and options	468,800	-	18,659	49,576	175
Fair valuation of swaps and forward	153,100	-	257	186	18,643

March 31, 2026					
	Notional Amount	Non-current Liabilities (Fair Value)	Current Liabilities (Fair Value)	Prepaid expenses and other current assets (Fair Value)	Other non-current assets (Fair Value)
	US\$	US\$	US\$	US\$	US\$
Fair valuation of swaps and options	28,000	-	304	-	2,768

For the year ended March 31, 2025 and 2026, the Group recorded the net fair value of derivative asset/liability of US\$ 27,798 thousands and US\$ 42,439 thousands, respectively, in the other comprehensive income and recorded an expense of US\$ 13,196 thousands in the year ended March 31, 2025 and US\$ 5,730 thousands in the year ended March 31, 2026, each related to the amortization of the cost of the hedge.

The foreign exchange derivative contract will mature over a period of 1.8 years.

Contracts designated as fair value hedge

The Group hedged the exposure to fluctuations in the fair value of firm commitments denominated in foreign currency through forward exchange derivative contracts. Fair value adjustments related to non-financial instruments will be recognized in the hedged item upon recognition and will eventually affect earnings as and when the hedged item is derecognized. Changes in the fair value of derivatives designated and qualifying as fair value hedges, together with any changes in the fair value of the hedged firm commitments attributable to the hedged risk, will be recorded in the consolidated balance sheet. The gain or loss on the hedging derivative in a hedge of a foreign-currency-denominated firm commitment and the offsetting loss or gain on the hedged firm commitment is recognized in earnings in the accounting period, post the recognition of the hedged item in the balance sheet. The forward exchange derivative contracts were not entered into for trading or speculative purposes.

27. Concentrations of credit risk

Financial instruments that potentially subject the Group to significant concentrations of credit risk consist principally of cash and cash equivalents, restricted cash, accounts receivables and derivative instruments. The Group mitigates the risk of credit losses from financing instruments, other than trade receivables, by selecting counter parties that are well known Indian or international banks.

The following customers account for more than 10% of the Group's accounts receivable and sale of power as of and for the years ended March 31, 2025 and 2026:

Customer Name	March 31, 2025		March 31, 2026	
	% of Sale of Power	% of Accounts Receivable	% of Sale of Power	% of Accounts Receivable
Solar Energy Corporation of India	46.43 %	52.60 %	44.79 %	60.77 %
NTPC Vidyut Vyapar Nigam Limited	13.19 %	2.43 %	13.13 %	3.97 %

28. Whistle-blower Allegations and Special Committee Investigation

As the Company has disclosed in its filings since 2022, in May and September of 2022, the Company received whistleblower complaints and initiated internal investigations headed by the Audit and Risk Committee (the “ARC Investigation”) and a Special Committee of Board of Directors established in August 2022 (the “Special Committee Investigation”). The committees initiated separate investigations with the support of external counsel and forensic advisors. At the direction of the Board, external counsel for the committees initiated a voluntary self-disclosure on behalf of the Company to the U.S. Department of Justice and the Securities and Exchange Commission (the “U.S. Government”). The Company continues to cooperate with the U.S. Government’s investigations.

The ARC Investigation was concluded in the previous fiscal year.

The Special Committee Investigation, which is substantially complete, identified evidence that individuals formerly affiliated with the Group may have had knowledge of, or were involved in, an apparent scheme with persons outside the Group to make improper payments in relation to certain projects. To date, the Special Committee has not identified related improper payments or transfers by the Group. The Special Committee’s review and the information it identified have impacted the decision-making of the Group in connection with such projects.

On November 20, 2024, a grand jury in the Eastern District of New York indicted former Company directors Cyril Cabanes and Deepak Malhotra, former Azure executives Ranjit Gupta and Rupesh Agarwal, and several other individuals (unrelated to the Group) for alleged conduct related to the Special Committee Investigation. Separately, on November 20, 2024, the SEC brought complaints against former director Cyril Cabanes and other individuals (unrelated to the Group) for alleged conduct related to the Special Committee Investigation. The Company is not a defendant in either action. On May 18, 2026, the U.S. Department of Justice moved to dismiss the criminal indictment with prejudice. The United States District Court has not yet ruled on that motion.

As the Company has previously disclosed, a class action lawsuit was filed in the U.S. District Court for the Southern District of New York, against the Company and certain of its former directors and officers alleging violations of U.S. securities laws. As of March 31, 2025, the Company had recognised a provision of US\$ 23,000 thousands on account of the settlement. and which was duly settled during the year.

Our Group (specifically our subsidiaries with respect to affected projects) could be exposed to liabilities under the relevant contractual and tender documents (including levy of damages and liquidated damages, reduction of PPA tariffs and/or short closure of capacity), administrative actions (including the risk of PPA cancellation, risk of being debarred from SECI’s future contracts, withdrawal or nullification of commissioning certificates and/or revocation of commissioning extensions and from lenders) and penalties from customers and other civil liabilities, all of which could adversely impact the revenue, profitability and capitalization of the affected projects. In addition, civil and/or criminal fines and/or penalties by regulatory authorities (including by the U.S. Government and applicable Indian regulatory authorities) could be imposed on us as well as ongoing obligations, remedial corporate measures or other relief against us that could adversely impact our operations. Any such fines, penalties, ongoing obligations or other measures or relief against us could materially and adversely affect our business, results of operations, financial condition and cash flows in future periods. Further, in addition, certain of those outcomes could adversely impact our ability to maintain compliance with the covenants under our credit facilities or result in an event of default thereunder. In addition, we could be exposed to future litigation in connection with any findings of fraud, corruption, or other misconduct by persons who served as our directors, officers and employees.

29. Subsequent event

During the period between March 31, 2026 and the date of authorization of these financial statements, there have been no material events after March 31, 2026 which required disclosures or adjustments to these financial statements as at, and for the year ended, March 31, 2026, except the Group received insurance claim proceeds of US\$ 3,975 thousands in June 2026, towards business interruption losses suffered from August 2025 till April 2026, and material damage. Accordingly, the Group has recognized pro-rata amount of US\$ 3,714 thousands in the Consolidated Statement of Operations for the year ended March 31, 2026.
